EDINBURGH AND LEITH STREET DIRECTORY.

The situation of the Closes, Courts, and Lanes, are pointed out by their Names being printed in Italics, at the place or Number of the Street in which they occur; and also when any Street is divided by Cross Streets, the Divisions are distinguished by the Name of the Cross Street being printed in Italics, with a before it, between the two Numbers of the Street in which they occur.

* * * *To those having occasion to circulate advertisements, &c. this part of the Directory, in connexion with the List of Letter-carriers at the beginning of the book, will be exceedingly useful, — the names and addresses being taken from the following list, and then thrown into districts for delivery, according to the rounds of the different Letter-carriers.*

SUNDAY DELIVERY.—The delivery on SUNDAYS (to persons calling at the Office only) takes place from 7-30 to 9 m. and from 4 to 5 a.

LATE DELIVERY OF LETTERS.—Representations having been made of the time occupied by the LETTER CARRIERS in the DELIVERY of their LETTERS through the City, the inconvenience has been ascertained to be in a great measure, if not entirely, attributable to the delays experienced by the Carriers at hall doors, owing to servants not answering the bells; and in some cases, by the servants not being provided with money to pay the postage. Instructions have been issued to the Letter Carriers to *rap or ring at each hall-door twice*, pausing an instant. The application of the Carrier, therefore, cannot be mistaken; and the public are earnestly requested to aid the Post-master General in his Lordship's anxiety to expedite the general delivery of the correspondence, by obliging servants to answer immediately the Carrier's application, and to have the servant previously provided with sufficient sums to discharge their demands. The increase of Letters, and the reduction of Postage, render it imperative on the public not to delay the Letter Carriers on their walks. Positive orders have been issued to them not to remain at hall-doors where servants are unprovided with money to redeem letters.

A system of Registration has been adopted, and all Letters, whether containing Coin or not, can be

REGISTERED

on payment of a registration fee of One Shilling, in addition to the ordinary rates of Postage on Inland and Colonial, as well as on Ship or Foreign Letters, or Letters passing through France. On those for delivery within France, the charges, besides the registration fee of one shilling, will be the English rate to France, in addition to double the French rate to the place to which the Letter is addressed. A printed acknowledgment torn out of the receipt book, and stamped with the office stamp, will be given to any person registering a Letter. Registered Letters will be taken at the General Post Office, at the Receiving Houses, and by all Postmasters throughout the United Kingdom, until within half an hour of the closing of the Box for the particular Mail or Bag by which they are to be dispatched. Registered Letters bearing a sufficient number of Stamps will be considered Paid Letters, but the registration fee of one shilling must always be paid in money.

In the case of Foreign, Colonial, or Ship Letters, it must be clearly understood, that Registration cannot extend beyond the Port of despatch in the United Kingdom, though parties, if they wish it, may register such Letters as far as the Port of despatch. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post Office undertaking to provide for their security till they shall have been delivered, if addressed to France, and so long as they remain in the French territory, if passing through France.

The arrangements for carrying out the system of Registration have been made with the view of ensuring the punctual delivery of Registered Letters; on their delivery the parties to whom they may have been addressed will be required to acknowledge in writing their receipt.

The system of Registration provides a secure mode of transmitting

BANK NOTES, BANK POST BILLS, DRAFTS, &c. &c.

and persons having occasion to send by Post small sums will avoid risk by sending the money through the medium of

THE MONEY ORDER OFFICE,

now carried on, on the Public account, at the General Post Office. The commission chargeable for Money Orders was, on the 14th of November, 1840, reduced to

THREEPENCE ON SUMS NOT EXCEEDING TWO POUNDS, and on sums above two, and

NOT EXCEEDING FIVE POUNDS TO SIXPENCE.

No Order will be given for sums beyond this amount.

These modes having been devised expressly with a view to the security of property, it may reasonably be expected that all persons having occasion to transmit money will avail themselves of the opportunity of securing it, and in no case, by committing property UNREGISTERED to the Letter boxes, RISK ITS LOSS.

It, however, persons are willing to incur such risk should the articles forwarded be Notes, or Cheques payable at sight, they should be cut in halves, and the second halves should not be despatched until the receipt of the first has been acknowledged. The numbers, dates, and amounts should also be carefully taken.

Money Orders may be obtained at the General Post Office, and of all Postmasters, and of the Chief Deputy Postmasters, throughout the United Kingdom.

(For List of Post Towns and Principal Places, see page viii.)

* * * In cases where personal attendance is inconvenient, if the Order is received by the person to whom it is made payable, and the party presenting it for payment can afford full information as to the Christian name, Surname, Address, and Occupation of the person who originally obtained the Order, payment will be made, but unless these conditions are strictly complied with, it will be refused.

PEERS and MEMBERS of PARLIAMENT no longer despatch or receive correspondence FREE. MEMBERS of either House are entitled to receive, free of charge, PETITIONS to PARLIAMENT, provided that each Petition is sent without a cover, or in a cover open at the sides, and does not exceed the weight of Thirty-two Ounces. ADDRESSES to her MAJESTY pass free. With these exceptions, all Inland Letters or Packets, including those from the Channel Isles and the Isle of Man, if Prepaid, are subject to the following

RATES OF POSTAGE:

Not exceeding half an oz. in weight,	One Penny
———— one oz.	Twopence
———— two oz.	Fourpence
———— three oz.	Sixpence,

and so on, Two Rates being added for every ounce up to Sixteen Ounces, beyond which, with the following exceptions, no packet, whether subject to Postage or not, can be received.

1. Parliamentary Petitions and Addresses to Her Majesty.
2. Parliamentary Proceedings.
3. Letters and Packets addressed to or received from Places beyond Sea.
4. Letters and Packets to and from Public Departments.
5. Deeds, if sent open, or in covers open at the

sides. They may be tied with string and sealed, in order to prevent inspection of the contents, but they must be open at the sides that it may be seen that they are entitled to the privilege.

6. Bankers' Parcels dispatched from London, and specially delivered at the General Post Office, under certain regulations.

With these exceptions, all Packets above the weight of Sixteen Ounces will be immediately forwarded to the Dead Letter Office.

Inland Letters or Packets put into the unpaid Letter Boxes, are charged double the amount of Postage to which, had they been prepaid, they would have been liable. The Scale of Weight in force for General Post Letters is equally applicable to Letters passing through the local penny posts throughout the Kingdom, and to those passing through the local Posts of Edinburgh, London, and Dublin, the Regulations which restricted the weight of these latter to Four Ounces having been abolished. They are subject to the same Rules and the same Charges as General Post Letters, and must be paid in advance, or they will be liable to double the rate to which they would otherwise be subject.

The same Regulation applies to Letters prepaid by Money, where the full and proper rate of Postage has not been paid in advance.

POSTAGE STAMPS.

Letters written on Stamped Paper, or enclosed in Stamped Covers, or having Stamps affixed to them, (the Stamps in every such case being equal to the rates of Postage chargeable on such Letters if prepaid,) will pass *Free* of all other Postage charge in whatever part of the United Kingdom they may be posted.

In those cases where the value of Stamps on the Letter is less than the amount of the Postage to which it would be now liable, if prepaid, the letter will be charged double the amount of such difference on delivery. An Inland Letter, for example, weighing more than Half an Ounce and not exceeding an Ounce, if bearing only a Penny Stamp, will be charged Twopence on delivery.

Stamps may be used for Printed Votes and Proceedings in Parliament; if the Stamps, however, should be less in value than the proper rate of Postage to which these documents are subject, only the difference, and not double the difference, is charged.

Stamps (provided they cover the whole postage) may also be used on Foreign, Colonial, and Ship Letters, &c. outwards. If any Letter, however, addressed to places beyond sea, to which prepayment is compulsory, shall bear an insufficient number of Stamps, it will be sent to the Dead Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries. In such cases, therefore, Letters will be chargeable with the same rates as they would be if not bearing Stamps.

All these Regulations will be applicable to Newspapers in those cases where they are liable to Postage.

NOTE.—Adhesive Stamps should be placed on the front of the Letter and upon the right-hand corner on the upper side. Should this direction not be attended to, from the rapidity with which the duty must be performed, Letters which bear Stamps will frequently be taxed, while the Parties receiving them will be put to much trouble in obtaining a return of the Postage improperly charged. In all cases of complaint, whether of overcharge

or of any other irregularity, the Covers of the Letters must invariably be kept and sent to the Post Office, as affording the only means of investigating the complaint.

ADHESIVE STAMPS AND ENVELOPES.

Every Postmaster, Sub-Postmaster, or Letter-Receiver, without exception, will sell the Postage Label Stamps and Stamped Envelopes to the Public at the following Prices:—

The Penny Label Stamps, at 1d. each.
 The Twopenny ditto, . . . 2d.
 The Penny Envelopes, 24 for 2s. 3d. or 2 for 2½d.
 The Twopenny ditto, 12 ,, 2s. 2d. ,, 3 ,, 6½d.

NON-COMMISSIONED OFFICERS, CAPTAIN'S STEWARDS, SEAMEN, AND SOLDIERS, to and from the East Indies by the Overland Mails, "via Falmouth," can send and receive Letters, under the weight of half an ounce, on their own private concerns only, while they are employed in her Majesty's Service, or in the service of the East India Company, for one penny.

Letters coming from a Seaman, or from a Sergeant, Corporal, Trumpeter, Fifer, or Private Soldier.—The Penny must be paid at the time it is put into the Post Office.

The name of the Soldier or Sailor, his Class or Description, and the name of the Ship or Regiment, Corps or Detachment, to which he belongs must be specified.

And the Officer having the command must sign his name, and specify the name of the Ship or Regiment, Corps or Detachment, he commands.

Letters going to Seamen or Soldiers.—The Penny must be paid at the time it is put into the Post Office, and the direction must specify the class of person, and the Ship, Regiment, or Corps to which he belongs.

The postage upon Soldiers' and Seamen's Letters received from parts beyond sea, without the penny having been prepaid, is twopence in addition to the Ship Letter gratuity, if received by Private Ship.

Threepence Postage is charged on Letters addressed to Soldiers and Seamen to either of the following places:—River Gambia, Sierra Leone, Goree, Senegal, Cape Coast Castle, Fernando Po, Coast of Africa, Ascension (Isle,) and China. To St Helena, the East Indies, and New South Wales, one Penny. Seamen's and Soldiers' Letters from Abroad by private Ships are chargeable with Threepence each.

* * Warrant Officers either in the Army or Navy, or Master's Mates of the Navy, are not entitled to receive or transmit Letters at less than the usual rates of Postage.

Soldiers' and Seamen's Letters are not liable to any additional rate upon redirection; but all other LETTERS REDIRECTED, become, on redirection, subject to fresh rates of postage; but when a letter has been prepaid, and the person for whom it was intended has quitted the place to which it has been addressed, the letter may be forwarded to any place in the United Kingdom, for an additional rate, to be paid on delivery.

OVERCHARGED LETTERS.—Overcharges returned at the Windows of the PAID-LETTER OFFICE from 10 A.M. till 4 P.M.

PRINTED VOTES AND PROCEEDINGS IN PARLIAMENT, or of the COLONIAL LEGISLATURES, are charged—

Under four ounces.....1d.
 Above four and under eight ounces.....2d.
 Above eight and under twelve ounces.....3d.
 and so on.

Such Votes and Proceedings, whether paid or

unpaid, pass at these rates between places in the United Kingdom as well as the Colonies, by PACKET. To those places to which there are no packets—New South Wales for instance—they may be forwarded “by Private Ships,” at DOUBLE the above rates. They are not, however, forwarded to the East Indies, *via* Falmouth and Alexandria, nor to places through France, under the full rates of Letter Postage. The Postmaster-General is authorized (if he shall see fit) to delay the transmission of Printed Votes and Proceedings in Parliament for any space not exceeding Twenty-four hours from the time at which the same would otherwise have been forwarded.

COIN SHOULD NOT, UNLESS IN REGISTERED LETTERS, BE SENT BY POST.—The great increase in the number of MONEY LETTERS having rendered it impossible, without hazard to the punctual despatch of the Mails, to continue the former practice of entering the addresses of such Letters, and of taking receipts for them on delivery to the parties to whom they were addressed; such practice being now adopted in the case of Registered Letters ONLY.

BOTTLES CONTAINING LIQUID, AND OTHER ARTICLES OF A BRITTLE NATURE, should not be forwarded through the Post, as they are almost invariably broken either by the operation of stamping or by the friction of the Mail Coaches. It is, besides, improper so to transmit such articles, as by accidents to them the seals of Letters in the bags may be damaged, the Letters mutilated, or their Addresses entirely effaced. For similar reasons, articles having SHARP OR HARD EDGES should not be transmitted through the post; and the Act 3 and 4 Victoria, cap. 96, expressly directs that no letter shall be sent by Post containing any EXPLOSIVE OR OTHER DANGEROUS MATERIAL OR SUBSTANCE.

STAMPS.

The date shows when the letters were received at the Post Office.

The circular stamp, at the back of the letter, is used when the postage is to be paid on delivery, or has been prepaid by stamps.

Ditto, on the face of the letter, with the word “paid,” when the postage has been paid at the time of posting the letter.

LETTERS NOT TO BE DELIVERED BACK.—To prevent the possibility of Letters being surreptitiously obtained from the Offices where put in, office-keepers are strictly forbid returning, to any persons whomsoever, Letters that may be applied for, under whatever circumstances the recovery may be urged. This is, moreover, forbid by the established principle, that the instant a letter is committed to the Post, it is no longer the property of the Sender.

PENALTIES.—By the 1st Victoria, cap. 36, sec. 2, any person illegally conveying Letters incurs a penalty of L.5 for every offence, and L.100 for every week the practice is continued. The Sender also incurs a penalty of L.5 for every offence, with full Costs of Suit.

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

It is not compulsory to send Newspapers or Supplements to Newspapers by the Post, but those that are intended to be so transmitted, are entitled to pass free. All Newspapers must be sent in covers, open at the sides, and no words or communication may be printed on such papers after the same shall have been published; nor must there be any writing or marks upon any Newspaper, or the cover, other than the name and

address of the person to whom it is sent; nor any paper or thing enclosed or concealed in, or with such Newspaper or the cover, nor any printed words or communication on the cover, except that Newsvendors ONLY may PRINT their names and addresses thereon. Newspapers may be examined by the Officers of the Post Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage which a letter of the same weight would have been liable to. And any person who shall write or enclose any thing in any Newspaper or the cover thereof, or shall print any words or communication on a Newspaper, after it shall have been published, to be sent by the Post; or any person who shall knowingly send, or cause to be sent, by the Post, a Newspaper, in respect of which any one of those offences has been committed, may, at the option of the Postmaster-General, be prosecuted as for a Misdemeanour.

Newspapers pass free by the Edinburgh Local Posts, except in those cases where they shall be posted and delivered within the limits, for the time being, of the General Post Delivery, when the postage is one penny on each Newspaper.

* * As the mere affixing a Newspaper Stamp on any new periodical publication will not entitle it, as a matter of course, to pass free by the Post, those who may be about to publish, for the first time, any such paper, should submit a copy to the Postmaster-General, in order that it may be determined whether the publication is of a nature that will entitle it to pass free of postage.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.—

“And be it further enacted, that in all cases in which a question shall arise, whether a printed Paper is entitled to the privileges of a Newspaper or other Publication hereby privileged, so far as respects the transmission thereof by the Post under the Post Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.”

Newspapers from the British Colonies are delivered free of Postage at any place within the British dominions; those for persons who may have removed may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

NEWSPAPERS TO THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions by Her Majesty's Packet Boats, free of the duty of Postage, provided the same be duly stamped and made up open at the ends, and put into any Post Office within seven days after the day of Publication.

Newspapers may also be forwarded to the Colonies by Private Ships for a Postage of One Penny each, to some Foreign Parts free, and to others for a Postage of Twopence each, to be paid at the time of putting in, under the same regulations as to date, &c.

Newspapers printed in the British Colonies, brought to Great Britain or Ireland by Packet Boats, if made up without covers, or in covers open at the ends, are delivered within the United Kingdom free of Postage.

Newspapers to the East Indies are forwarded by the Packet *via* Marseilles, on payment of Twopence with each. The Mail is made up in London on the Fourth of every month, except it happens to fall on a Sunday, when it is made up on the following day.

Printed Prices Current, and Commercial Lists, from the British Colonies, France, and China, are now admitted into the United Kingdom at the reduced rate of one Penny each, whether conveyed by Packet or Private Ship.

Printed Prices Current, and Commercial Lists, from any foreign country, except France and China, are admitted into the United Kingdom at the reduced rate of Twopence each.

SHIP LETTERS.

The single uniform rate on Letters between the United Kingdom and places beyond Sea, when conveyed by Private Ships, is 8d., in whatever part of the United Kingdom the Letters may be posted or delivered. This is the rate now taken on Letters between the United Kingdom and the East Indies, &c. &c. when conveyed by Private Ship, the former distinction between these and other descriptions of Ship Letters having been abolished.

The rates of Postage on "Ship" as on other Letters are taken by weight.—

- Under half an ounce, Single.
- Under an ounce, Double.
- Under two ounces, Quadruple.
- Under three ounces, Sextuple, and so on.

PERSONS EXEMPT FROM SHIP LETTER POSTAGE.

The Owners, Charterers, or Consignees (resident in the United Kingdom,) and the Owners, Consignees, and Shippers of Goods on board vessels inward bound, are entitled to receive their Letters free from Sea Postage, to the extent col-

lectively of Six ounces in weight, by any One Vessel to any One such Person. In the case of Vessels coming from Ceylon, the Mauritius, the East Indies, or the Cape of Good Hope, for an Owner, Charterer, or Consignee of such Vessel, the letters may be collectively Twenty ounces in weight. The Owner, Charterer, or Consignee must be described as such on the address and superscription; and in the case of Owners, Shippers, or Consignees of goods, it must also appear by the Ship's Manifest, that they have Goods on board the Vessel. Such persons are entitled to have their Letters which come within the above Conditions before the Master of the Vessel delivers the other Letters in his charge to the Post Office.

* * * Every Person who shall, with intent to evade any Duty of Postage, falsely superscribe a Letter as being the Owner, or the Charterer, or the Consignee of a Vessel conveying the same, or as the Owner, or the Shipper, or the Consignee of Goods shipped in such Vessel, shall for every such offence forfeit Ten Pounds.

NORTH AMERICA AND BRITISH AND FOREIGN WEST INDIA ISLANDS.

The Mails for North America are forwarded by Steam Packets, which leave Liverpool twice a month, immediately after the arrival of the London Mails of the 3d and 18th, unless either of these should fall on a Sunday, and then on the succeeding day. During the winter months, viz. Dec. Jan. Feb. and March, but one Mail, that of the 3d, is despatched.

SYSTEM OF WEST INDIA MAILS.

On the arrival of the Packet from England at Barbadoes, or as soon after as the Governor or senior Naval Officer may consider necessary for the preparation of correspondence (not, however, exceeding six hours,) a Steam Packet is despatched with the Mails for Santa Cruz, St Thomas, St Juan Porto Rico, Cape Henri Haiti, St Jago de Cuba, and Jamaica. The Mails for the Spanish Main, are landed at Port Royal, to be carried forward in the vessels appropriated for that service.

It is calculated that the Packet will reach Jamaica on the seventh day from the arrival of the Sailing Packet from England at Barbadoes, in which case she remains eight days at Port Royal, but leaves as soon as possible after the expiration of the fifteenth day from such arrival from England, in order that the homeward-bound Sailing Packet, which, in the mean time, should have come up to Cape Henri, may not be delayed at that place by the non-arrival of the Steamer from Jamaica at the appointed time.

From Jamaica the Steamer proceeds with the return Mails to St Jago de Cuba, and thence to Cape Henri, where she delivers the Mails to the Falmouth Packet, after which she touches at St Juan Porto Rico, St Thomas, Tortola, Santa Cruz, St Kitts, Nevis, Montserrat, Antigua, Guadeloupe, Dominica, Martinique, and St Lucia, in her route to Barbadoes.

On the arrival of the Packet from England at Barbadoes, a second Steamer is dispatched with the Mails for St Vincent's, Grenada, Trinidad, and La Guayra.

At La Guayra the Steamer remains three days, and then returns by Trinidad and Grenada to St Vincent's, which island she reaches about the twelfth day after her departure from Barbadoes. But in the event of her being able to accomplish the passage in less time, she then remains so much longer at La Guayra.

A third Steamer is dispatched from Barbadoes on the arrival of the Packet from England, to deliver Mails at Tobago, and proceed to Demerara, where the Mails for Berbice are disembarked and forwarded overland to their destination. The Steamer remains five days at Demerara, and then goes to Barbadoes, calling at Tobago for the return Mails. She is expected to reach Barbadoes on the afternoon of the eleventh day from her departure from Tobago.

As soon as the Sailing Packet from England has delivered the beforementioned Mails to the several Steam Packets, she proceeds to St Thomas, dropping Mails at St Lucia, Martinique, Dominica, Guadeloupe, Antigua, Montserrat, Nevis, St Kitts, and Tortola; and on the morning of the twelfth day from the arrival of the Packet at Barbadoes, the Steamer from Demerara, which had arrived on the previous evening, or one of the spare

Steamers which may be in readiness at Barbadoes, proceeds with return Mails to St Vincent's, to take in the return Mails from that island, Grenada, Trinidad, and La Guayra, and then touches at St Lucia, Martinique, Dominica, Guadaloupe, Antigua, Montserrat, Nevis, St Kitt's, Santa Cruz, and Tortola, for return Mails, all of which she delivers to the Falmouth Packet at St Thomas, then returns to Barbadoes, calling at all the intermediate islands in her route.

The La Guayra Steamer, after having delivered the return Mails at St Vincent's to the vessels appropriated to carry them to St Thomas, goes to Barbadoes to be ready for the next Packet from England.

As soon as the return Mails from Guiana, La Guayra, and the Windward and Leeward Islands have been delivered to the Sailing Packet at St Thomas, she proceeds to St Juan Porto Rico, and Cape Henri, where she receives the Mails from Jamaica, Cuba, and the Spanish Main, and then proceeds on her voyage back to England.

The Mail for Bermuda is forwarded as heretofore by the North American Packet now dispatched from Liverpool; and is conveyed from Halifax to its destination by a Sailing Vessel, which leaves Halifax immediately on the arrival of the Packet from England.

LETTERS NOT TO BE SEALED WITH WAX, WHEN SENT TO WARM CLIMATES.

The practice of Sealing Letters passing to and from the East and West Indies, and other warm Climates, is attended with much inconvenience, and frequently with serious injury to the Letters, in consequence of the Melting of the Wax, and adhesion of the Letters to each other.

In the case of Mails received from India, consi-

derable delay is occasioned; and notwithstanding the greatest care is taken in separating the Letters, which, owing to the cause already mentioned, adhere closely together, many are much damaged and torn; the public are therefore recommended in all cases to use Wafers in preference to Wax, in securing their Letters sent to India or other warm Climates, and also to advise their correspondents in those countries to pursue the same course.

RATES OF POSTAGE UPON FOREIGN LETTERS

NOT EXCEEDING HALF AN OUNCE; beyond that weight the charge, so far as the British rates are concerned, increases in the same proportion as the charge for Inland Letters increases. It is, however, to be remembered that the French mode of charging is a single rate for each quarter of an ounce; therefore all letters, either for places within France, or which in their transit to their respective destinations must pass through France, to go for the single rates set down, must be UNDER A QUARTER of an ounce. The following Tables show the postage on French letters, or letters sent by the way of France.

LETTERS TO AND FROM FRANCE.

The Public are not required to pay the Postage upon Letters for France at the time of putting them into the Post;—they have the choice of sending their Letters Unpaid; or of paying the whole Postage, both British and French, to the Place of Destination; or of paying the British Postage only to Calais, viz. 10d. each Letter under the weight of half an ounce; 1s. 8d. under an ounce; 3s. 4d. under two ounces, and so on.

LETTERS FOR THE FRENCH POSSESSIONS in Africa, Algiers, Bona, Bougie, Constantine, Oran, Phillippeville, &c., are treated precisely as Letters for France, the French Postage being 1s. 5d.

FRENCH POST TOWNS,

WITH THE 'FRENCH' POSTAGE OF A SINGLE LETTER, *i.e.* UNDER ¼ OZ. WEIGHT.

The Postage from Edinburgh to Calais being 10d., that sum must be added to the amount opposite to the name of the Town in this list, when it is desired to pay the whole of the Postage, both English and French, of a Letter to its Destination.

Letters for France only, may be dropped into any Post Office Letter-Box without paying the Postage.

Although *Unpaid* Letters can only be forwarded to Places *within France*, there are other Countries to which the Postage may be paid (if the Sender should desire it,) in whole or in part, as the case may be, viz. :—For Central Germany, Sardinia, and Switzerland, Letters may be paid to their destination. For Southern Italy, Letters may be paid to the Italian Frontier of Sardinia. For Austria, and Venetian Lombardy, Letters may be paid through France to Huinguen or Forbach. The Lists which immediately follow show the Places, and the charge to be added to the British Postage of 10d. for such British Rate; the Foreign as well as the English Charge to be calculated by weight, as the case of French Letters. But Letters for those Places *cannot be forwarded unpaid*.

REDUCTION OF POSTAGE.

HAMBURG, CUXHAVEN, LUBECK, AND BREMEN.

By a Regulation which came into operation on the 6th of April 1841, the Postage upon all letters posted in the United Kingdom, addressed to *Hamburg, Cuxhaven, Lubeck, or Bremen, Vegesack, and Bremer haven*, and *vice versa*, when conveyed by the *Hamburg Packet*, or direct by private ship, is reduced from the former packet rates of 1s. 8d. and 1s. 10d., and from the former Ship Letter rate of 8d. to one uniform rate of 6d. the half-ounce, 1s. the ounce, and so on, which *must be paid in advance*.

This regulation only applies to Letters posted in, or addressed to, *Hanburg, Cuxhaven, or Bremen*. Letters to and from places *beyond Hamburg, Lubeck, or Bremen*, addressed "*via Hamburg*," or "*via Lubeck*," will still be liable to the former rates—viz., 1s. 8d. if posted or received in London, and 1s. 10d. if posted or received in any other part of the United Kingdom.

The reduction also does not apply to Letters passing between the United Kingdom and *Hanburg, Cuxhaven, Lubeck, or Bremen*, when forwarded *via France, Belgium, Holland*, or by any other route than the *Hamburg Packet*, or by *direct Ship-Letter Mails*.

CENTRAL GERMANY.

List of Post Towns, with the Foreign Postage of a single Letter from Calais. The Postage from Edinburgh to Calais being 10d., that sum must be added to the amount opposite to the name of the Town in this List when it is desired to pay the whole of the Postage, both English and French, of a Letter to any of its final destination. When it is intended to dispatch Letters by this route, they must be directed '*via* France.'

MAIL-COACH ROUTES FROM EDINBURGH,

SHOWING THE ARRIVAL AND RETURN OF THE MAIL AT EACH OF THE UNDER-MENTIONED PLACES.

The following Lists will, it is hoped, be found of much importance to the Public, as showing the course of Post, and enabling persons to avail themselves of Mail Conveyances. A very trifling calculation will also enable them to ascertain the time of the Mail passing any of the intermediate places. The Third Column shows the time of the Mail passing, and the last that of its return to Edinburgh. The return of the London Mails is calculated by London time.

FIRE DEPARTMENT.

THE allowance of Ten per Cent, which has been made on the Premiums paid on Policies of Seven Years' standing, is the surest proof of the unprecedented success of this Institution.

LIFE DEPARTMENT.

Tables have been calculated expressly for this Institution, and, independent of a reduced rate of Premiums, as compared with other Offices having a Subscribed Capital, persons assured for the term of life will be entitled, at the end of every seven years, to one moiety of the Profits of the Company, after a deduction of such sum per annum for the guarantee of the Capital, as the Directors may think reasonable, the extent of which is, however, limited by the deed of settlement.

The share of the Profits to be so allowed to the Assured may be applied, either by adding to the amount of their respective Policies such reversionary sums as are equivalent to such profit, or in reduction of the Premiums thereafter to be payable on such Policies, provided such option be declared in writing within three calendar months after the division shall have been declared; but if such option be not so declared, such share of Profits will be added to the amount of the Policies.

The first division of profit to the Assured was made to Christmas 1828, and a second division of profit was made to Christmas 1835. At each period the Reversionary Bonuses added to the several Policies, averaged rather more than twenty-eight per cent on the amount of Premiums paid thereon during the preceding seven years.

If any person assured with this Company for seven years, or for life, should die within thirty days after the Premium should become due, such Assurance is to be valid in case the Premium be paid within such period of thirty days.

No additional Premium will be required from Military Men, unless when called into actual service. No charge will be made for Entrance-Money, Admission Fees, or for Policies beyond the cost of the Stamp.

THE Aberdeen Assurance Company was established in 1825, by a numerous body of Proprietors, and is at present one of the wealthiest and most influential Companies carrying on business in the North of Scotland. As illustrative of the extent and success of the business, it may be mentioned that the Company has One Hundred and Sixty Agencies ; and that the Shares are One Hundred and Fifty per cent. above the original cost.

Aberdeen Fire and Life Assurance Company—Continued.

FIRE INSURANCE.

Ordinary Risks, such as Dwelling-Houses, Household Furniture, &c., are charged 1s. 6d. Hazardous Insurances, which comprehend Spirit Dealers' Stock, Bakehouses, Oils, and the like, 2s. 6d. Doubly Hazardous Risks, such as Thatched Buildings, China, Glass, &c. 4s. 6d. FARM STOCK is rated only at 2s. per cent., and *no charge is made for the Policy*, which, to Farmers, is an important saving upon small sums.

The Rates of the ABERDEEN ASSURANCE COMPANY for Lives are
LOWER THAN THOSE OF ANY OTHER OFFICE IN SCOTLAND;
 while the security afforded to the Policy Holders is undoubted.

The Company grant Assurances under a variety of forms: that is, they have Tables calculated, showing the same ultimate results, but which may be used, by persons Insuring, according to their different circumstances. Thus—

Assurances may be effected for any limited time, or for the whole duration of life. The Premiums may be paid yearly, half yearly, or quarterly. As it is often an object for many persons to pay off their Premiums within a certain time, instead of having them spread over every year during which they may live, Tables are computed, to show the amount to be paid in one payment, in 5, 10, 15, or 20 years: For example, a person at the age of 25, may secure £2000 at death, by payment of £38. 1s. 8d. per annum during his life, or by payment of £157. 3s. 4d. for *five* years; £83. 13s. 4d. for *ten* years; £66. 18s. 4d. for *fifteen* years; or £56. 6s. 8d. for *twenty* years; the Premiums at the end of these periods absolutely ceasing. (See Table A.)

PARTICIPATION IN PROFITS.

To those desirous of participating in the Profits of the Company, while they are secured from all risk by its Capital, the moderate Premiums required, (See Table C.) and the GREAT prospective *advantages* which are certain to accrue, present inducements of the most substantial nature. The *whole Profits* resulting from this department will be divided among the Policy Holders, except a small proportion which the Directors will apply to the expense of management.

THE SUM ASSURED MAY BE MADE PAYABLE IN THE LIFETIME OF THE PARTY; thus a person aged 25 may secure £500, to be payable to him whenever he reaches 60, or to his representatives, should he predecease that age, by payment of £42. 17s. 1d. per annum. (See Table D.) The advantages which attend this last form of the contract of Insurance are too evident to require much illustration; but it may not be out of place to point out a few of them. It enables a Creditor insuring his Debtor's life, in order to secure a past due debt, or a present advance of money, to calculate with certainty on recovering his debt, or receiving re-payment of his advance at a *fixed period*; and while, in so far as the assured himself is concerned, this system has all the advantages of the ordinary forms of Assurance, it possesses this peculiar feature, of enabling every one, however limited his income may be, by the appropriation of a portion of it yearly, during his years of health, strength, and active exertion, to provide for the support of *himself*, as well as those who may be dependent on him, during his declining years.

FAMILY SETTLEMENTS.

Assurance is most particularly advantageous in such matters, and may be made of great consequence to the Husband, where it is his desire to receive payment of his Wife's portion at Marriage, instead of having it vested in Trustees, to be applied at his decease for behoof of the family. By devoting part of his income to the payment of Premiums, this may be easily accomplished, or by having the sum assured made payable at the decease of either his wife or himself, he secures, at a small increased outlay, the chance of receiving the Insurance, in addition to the Marriage portion.

Assurances, at the same time, may be applied with equal benefit to persons in every grade of life, and to none more advantageously than to Professional Men, and Heirs of Entail; indeed, to all those whose Incomes cease with their existence.

LOANS are granted upon the Security of Life Policies, immediately upon their being effected; and to Heirs of Entail, upon the Security of the Rents of their Estates.

ANNUITIES.—It is to be regretted that, in many instances, Annuity Offices have commenced business with Tables which have not been calculated according to the actual rate of Mortality, and without having One Shilling of Capital to make good any deficiencies which may arise. Numerous Bankruptcies have, in consequence, happened. This Company offer to the public Annuities as high as the nature of their Investments will justify, while their subscribed Capital and large Sinking Fund afford a sufficient guarantee for the settlement of every claim. A Male, 50 years of age last birthday, would receive £7. 16s. 10d.; at 60, £9. 15s. 3d.

Aberdeen Fire and Life Assurance Company—Continued.

per annum for every £100—while Females, at the same ages, would get £6, 17s. 8d., and £8, 8s. 9d. If the Annuity be payable half-yearly, a small deduction is made.

SURVIVORSHIP ANNUITIES are also granted on liberal terms.

ENDOWMENTS TO CHILDREN.—By setting aside the trifling Annual Premiums which are required, Parents secure for their sons sums sufficient to enable them to begin life—to their Daughters, Marriage Portions.

The Premium to secure £500 to a child under one year of age, when it arrives at 21, is £13, 15s. per annum. If the sum is to be paid at 18, it is £17, 13s. 4d.

From the subjoined Extract, from an article which appeared in *Chambers' Journal* (a periodical of extensive circulation) of 2d October 1841, and the annexed Tabular view of the Annual Premiums required for the Assurance of £100 at death, in each of the Scottish Life Offices, it will be observed, that the liberality and probity of the Aberdeen Assurance Office are fully established.

* * * ALL CLAIMS ARE PAYABLE THREE MONTHS AFTER PROOF OF DEATH.

*Extract from an Article on Life Assurance in CHAMBERS' EDINBURGH JOURNAL, (No. 505),
2d October 1841.*

“WE have here, then, exhibited before us the principal data on which rates for Life Assurance are formed. When we come to inquire how they have been wrought out in practice, we find a surprising discrepancy of result, throwing a remarkable light upon the various degrees of cautiousness possessed by different men. The most of the older offices continue to adhere to the exploded Northampton tables, not, it is true, as asserting their correctness, but on the plea of their well-marked safety. It is also a maxim amongst these offices, to take desponding views as to the future improvement of money. Other offices, chiefly of recent origin, have availed themselves of the late investigations, and exhibit premiums considerably lower. We shall endeavour to bring the two different systems into contrast, by showing the various sums to which the whole premiums payable for the various ages between 20 and 60 amount in a selection of offices. These, in the case of the Albion and Globe, English proprietary offices, are respectively £140, 19s. 3d., and £151, 5s. 2d. Those of the Norwich Union, Scottish Widows' Fund, Amicable, and London Life, mutual offices, are respectively £142, 10s. 4d., £146, 12s. 5d., £155, 3s. 6d., and £171, 18s. To put the variance in a different form, to insure, at 40 years of age, the sum of £100, payable at death, requires, in the Albion, an annual premium of £3, 2s. 3d.; in the Globe, £3, 7s. 11d.; in the Norwich Union, £3. 2s.; in the Scottish Widows' Fund, £3, 5s. 6d.; in the Amicable, £5, 5s.; and in the London Life, £3, 15s. We shall now select examples of charges by the younger class of offices. The ABERDEEN Company (proprietary) charges £129, 7s. 9d.; and the Scottish Provident (mutual), £131, 8s. 8d. To show the difference another way, the ABERDEEN Company charges only £2, 14s. 5d., and the Scottish Provident £2, 14s. 9d., to insure £100 upon the death of a person aged 40, being in each case upwards of a pound less than the charge of the London Life Office. We have ascertained that the Scottish Provident proceeds upon the government table for males, which, it will be recollected, is considerably within the Equitable experience, and it assumes that money will continue to be improvable at not less than 4 per cent. To the nett values thus attained, it makes a proportionate addition, varying from 10 to 15 per cent., according to age, for expenses of management, and as a guarantee for any unfavourable fluctuations of mortality and interest.

“The experience of the last-mentioned society is of itself too short (five years) to afford a general test; but we have ascertained that, as far as it goes, it tends to confirm the perfect safety of the rate of mortality assumed. The ABERDEEN Office, from its institution in 1825 till 1840, proceeded upon rates a little higher than those above stated; the aggregate for the ages between 20 and 60 being £131, 14s. 2d. With this scale the Company throve well, inasmuch that their stock yields an uncommonly large return.* Its great prosperity is understood to be owing to the life business alone, and very much to the success with which the funds arising from that department of the business have been invested. The Edinburgh Life Assurance Company—a well managed and successful one—exhibits an aggregate of £133, 4s., being a little more than the ABERDEEN Company's rates; and we find its stock yields 6 per cent., and stands at a premium of £14 for £10. There are various other proprietary offices which charge nearly the same premiums; but we here limit ourselves to offices of the probity of which we are assured from local knowledge.

“It appears, then, that there are a few offices, proprietary as well as mutual, but chiefly of comparatively recent establishment, which proceed upon modern tables of mortality, and the expectation of improving money at not less than 4 per cent., with an allowance, besides, for management and profit or guarantee fund; while the great bulk of the offices, either from a disinclination to change fashions, or a sincere preference for ultra-safe data, adhere to obsolete tables, looking only for 3, or at most 3½ per cent., as certain, and consequently charge, on an average of all ages, in some cases about a fourteenth, in others about an eighth, and in some not less than a sixth, more than the others.

“The public may thus be said to have two plans laid before them for their choice. Faith in modern tables (and of the trustworthiness of these there can be no reasonable doubt,) an assumption that the interest of money will not greatly change, and a preference for precise modes of dealing, tend to bring customers to the companies and societies of moderate rates, supposing that these stand on an equality with others in point of probity and prudence of management. Persons of this kind naturally calculate that, if they can insure £1000 with one proprietary company for the same sum which insures something less than £900 with another, the reasons for faith in the respectability of the office being the same, they had better go to the former than to the latter.”

* * Mr Reid's recently published and very useful manual of Scottish Stocks, gives the dividends of this Company as 12 per cent., and the L-2 shares as standing at L.5, 2s. 6d.”

This is the ONLY OFFICE in which the benefit of MUTUAL ASSURANCE and PARTICIPATION IN THE WHOLE PROFITS is combined with MODERATE PREMIUMS.

Until its establishment, an Assurer was compelled either to see the profits of his assurance go to raise the shares of a Proprietary Company, or, in joining a Mutual Assurance Society, to pay a rate of premium confessedly exorbitant, and disproportioned to the risk.

THE PREMIUMS are deducted chiefly from the Government Observations for Males, with such additions as to provide for perfect security. At early and middle ages the premium usually required to assure £400, will secure about £500 in this office. They are also more accurately adjusted to the several ages.

Although the premiums exacted by Mutual Assurance Societies have hitherto been on the highest scale, yet it is evident that lower rates are sufficient for security in a mutual, than in a proprietary, office, being free from the yearly drain upon them for dividend on a capital, which, if the premiums charged are adequate to the risk, can never be required. "If," says Professor de Morgan, "the premiums were really too low, capital would be an injury, and not a benefit; for, since this capital is really paid for, in whole or in part, out of premiums, it would not preserve the office from insolvency, but would rather accelerate its progress towards bankruptcy."

On a comparison of the respective premiums, it will further be seen, that, while those charged in the older participating offices are, at early and middle ages, from 20 to 25 per cent higher than in this, members of 60 are actually remitted at a lower rate. A great RELATIVE injustice is thus done to the younger entrants, a part of the overcharge on whose premiums must obviously go to make up the comparative deficiency on those of the old.

THE PROFITS (or Surpluses) are wholly divisible among the Members, and that on a new and equitable principle, peculiarly favourable to good lives.

BY THE PRACTICE OF OTHER OFFICES, the representatives of a person assured for £1000, and dying in six or eight years after entry, will carry off not only the original sum in his Policy, but a further sum, in name of PROFIT on his assurance, although the premiums which he has lived to pay will not amount to one-fourth of his original assurance, and therefore the common fund has already been loser by him to the extent of more than £750. For the original sum assured—or for this first loss of £750—the office is no doubt justly liable, as it forms the very ground of the contract; but it is not, or ought not to be, liable for more—for a calculated profit of £150 or £200, which can only be realized, if ever realized at all, out of the excess on the contributions of others, to their manifest detriment in the mean time, and possibly to their ultimate loss.

IN THIS OFFICE the surplus is reserved entire for those members who survive the period at which their premiums, with accumulated interest, amount to the sums in their policies. Being thus divided among a comparatively small number, the share, or bonus, falling to each, will necessarily be much greater than by the usual mode.

ANNUITIES—Immediate, Deferred, and Contingent—on very favourable terms.

Examples of Annual Premium to Assure £100 at Death.

PREMIUM.	L.1 15 8	L.1 18 0	L.2 1 6	L.2 6 10	L.2 14 9	L.3 5 9	L.4 1 7

The Premiums may be made to cease entirely, after a limited number of payments. Those payable for 21 years only, will be found nearly the same as most Offices require for the whole of life—however long.

** Prospectuses explanatory of the principles, Reports of the Annual Meetings of the Members, Forms of Proposal, and every information, may be had at the Head Office in Edinburgh, or from the Agents.

THE Directors of this National Institution, sensible of the advantages which it affords to all classes of insurers, have abstained from putting forth their claims to the patronage of the public, notwithstanding the many rival Companies which have lately been ushered into existence. In justice, however, to their numerous proprietary and policy-holders, they cannot refrain from pointing out a few of the benefits which the Caledonian Company offer to Life Insurers, and which, when considered, cannot fail to secure for them a continuance of that support they have hitherto so liberally received.

1. Every facility is given to insurers to effect Life Policies, by taking payment of the premium in a single payment, by annual, half-yearly, or quarterly payments, or by the ascending or descending scale, or by any other mode in practice.

2. The Premiums will be found as moderate as those of any office of the same respectability and standing.

3. When the party wishes to surrender a policy, a liberal price will be given for it; and in particular cases, when the object of the insurer has been satisfied, the Policy will be purchased by the Company on very favourable terms for the seller.

4. In the event of death, claims are payable three months after proof satisfactory to the Board has been afforded, and sooner, should the parties require it, on payment of the usual discount.

5. Advances made on security of Policies, on very liberal terms to borrowers.

6. The Company pays the sum insured, in the event of the assured dying by suicide, duelling, or a sentence of the law, when the Policy is *bona fide* assigned to third parties, for onerous causes; or when effected by one party on the life of another, thus securing creditors against challenge on any of these grounds.

7. To Policy-holders on the participating plan, peculiar advantages are afforded from the economical management of the Establishment, and the smallness of the losses hitherto being much below the average mortality arising from the careful selection of the lives.

8. No Entrance-money is charged, and no expense beyond the stamp, which is only payable once when the Policy is issued.

The above is merely an outline of the most prominent advantages which at first sight may appear to intending assurers all that is required to be known before taking out a Policy. But as the printed Prospectus gives a much fuller statement of every thing connected with the business, reference is made to it, which can be obtained at the Head Office here, gratis, or at any of the branches in Scotland, England, and Ireland.

Every description of Fire business is done at rates as low as those of any respectable Establishment.

THE SUCCESS WHICH HAS ATTENDED THIS COMPANY,
may be attributed to

The undoubted Security afforded for its engagements.
Its Moderate Premiums, there being at the same time no Charge for Entry Money.
Its Liberal Management,
and the particular benefits of the system pursued in the Division of its Profits.

THE PROFITS OF THE COMPANY

have been already divided at two periods, in 1835 and 1840, and the future Divisions fall to be made at intervals of five years.

THE MODE OF DIVISION

is similar to that acted upon by

THE EQUITABLE SOCIETY OF LONDON,

in the case of its privileged Policy-Holders, and confers the greatest advantages upon those who remain connected with the Company for the longest period.

THE ADDITIONS ALREADY DECLARED upon the oldest Policies, are as high as £33, 15s. per cent. for instance:—

A Policy for £1000, opened in 1825, has been increased to	£1337	10	0	
Do. do. do. 1826,	do.	1312	10	0
Do. do. do. 1827,	do.	1287	10	0

being larger vested additions than have been declared by any other Scottish Office upon similar Policies.

Every other information as to Life Assurance and Annuities, may be had, by application at the Head Office, No. 3, George Street, Edinburgh; at the Office in London, 32, Lombard Street; or at any of the Agencies in Scotland, England, and Ireland.

FIRE DEPARTMENT.

THIS extensive Company, with a Subscribed Capital of FIVE MILLIONS STERLING, divided among 5000 Proprietors, was established in 1824—the great conflagrations of that year having led the Public to found a National Institution upon a wide and substantial basis. It appears from the last Government Returns, that property has been assured with this Company against Fire in a single year to the extent of FIFTEEN MILLIONS SEVEN HUNDRED AND THIRTY-SEVEN THOUSAND POUNDS Sterling, which large amount, exceeding that of Seven other Scottish Companies taken together, sufficiently proves the high estimation in which this Establishment is held by the public.

Losses by Fire, when satisfactorily ascertained, are IMMEDIATELY PAID; and the Directors can with confidence appeal to Several Thousand individuals who have from time to time obtained from this Company the most satisfactory remuneration for their accidental losses.

The rates of Premium are very moderate, being only One Shilling and Sixpence per cent on ordinary risks.

LIFE DEPARTMENT.

PROFIT FUND.—Two-Thirds of the Profits are allotted at regular periods to the insured, without being subject to any deduction for charges of management; and additions are made to Policies, or corresponding reductions of Premium, at the option of the Insured.

The BONUS declared at the first division of Life Profits averaged no less than *Fourteen* per cent, or *Two* per cent per annum, and was allotted to the Assured on the most *EQUITABLE PRINCIPLES*. The additions made to a Policy for L.1000 of seven years standing are as follows:—

Age when Assured under	Additions.	Total Sum now payable.
	£ s. d.	£ s. d.
30	133 7 6	1133 7 6
35	135 19 0	1135 19 0
40	138 15 6	1138 15 6
45	142 9 0	1142 9 0
50	148 17 6	1148 17 6

Parties now effecting Policies will derive the important advantage of participating in the *Profits* of the next *Five Years*.

REDUCED RATES—No PROFITS.—To facilitate Loan Transactions, a reduced scale of Rates has been adopted, which will be found particularly favourable to the Insured, more especially for young and middle-aged persons.

LOANS.—The Directors are ready to make advances by way of Loan, on the following securities:—1st, On Policies of Insurance on Lives to the extent of their estimated value; 2d, On such Policies, with the addition of personal security for payment of the future premiums and interest.

James Tytler, Esq. of Woodhouselee

John Tod, Esq. of Kirkehill, W.S.

David Welsh, Esq. of Collin, W.S.

THE TERMS and CONDITIONS of this INCORPORATION are much more favourable than those of any other similar Institution in Scotland. **THREE-FOURTHS** of the **ENTIRE PROFITS** of the **BUSINESS**, without any reservation, are septennially divided amongst the Policy-holders.

A **RETURN** of **TWENTY PER CENT** was made on the Premiums received during the seven years from Candlemas 1832 to Candlemas 1839; and the Return was not confined to Insurance of seven years' duration, but was made on **THE WHOLE AMOUNT OF PREMIUMS** received during all or any part of the above period.

The Reduced Rates of Premium are charged—losses are settled with promptitude and liberality—the damage and expense attending the removal of property on alarms of fire are paid by the Society—and losses by lightning are made good to the assured. No expense attends the Transfer of Policies from other Offices.

PRINTED PROPOSALS, showing the Rates and Conditions of Insurance, may be obtained by applying at the Head-Office, or at any of the Society's Branches.

LIFE DEPARTMENT.

A THIRD Valuation of the Company's Life Risks was completed in June 1838, and the Directors have great satisfaction in stating its results; the Tables annexed show the additions made to the Company's Life Policies. If parties will take the trouble of comparing the Bonus to which a Policy in this Office is entitled, with what would attach to a Policy of similar standing at other offices, (a comparison that may very readily be made, as the printed Proposals of Assurance Companies generally show the amount of periodical additions,) it will be seen that such comparison is very favourable to this Company.

The Directors having recently had under their consideration the rates of Premium for Life Assurances, have determined to reduce them considerably for the younger ages, so far as they refer to Assurances made for shorter periods than the whole term of life. It is confidently trusted that this reduction in the short term premiums will be found highly useful to such parties as are obliged to insure their lives to perfect securities for temporary loans of money; inasmuch as the saving in the premium of Assurance will, in some cases, be nearly 15 per cent.

ASSURANCES are effected by this Society to the extent of £5000, upon the same sole or joint or surviving Life or Lives, and are not confined to the profession of the Law, but are open to persons in every station of life.

FOUR-FIFTHS of the Profits made by this Society will be appropriated to the persons assured for the whole term of Life.

On the 31st day of December 1847, and at the end of every Seven Years from that period, the Profits divisible amongst the Assured, will be apportioned amongst such of the Assured for the whole term of Life, as shall have been so assured for the space of three years or upwards, previously to those periods respectively, subject only to the reservation of such a sum of money as the Directors shall deem necessary to be carried forward to the period of the next Septennial division, for the benefit of the Assured. For the amounts which shall be so apportioned, equivalent Reversionary sums will be added to the Policies respectively of those entitled.

The subjoined is a SPECIMEN TABLE OF BONUSES, in even pounds, added to Policies of £1000 each, which have been in force seventeen years, ending 31st December 1840, including the Bonuses added on the former division.

Age at Commencement.	Amount of Premium.	Age at Commencement.	Amount of Premium.

35	359	60	681
40	391	65	885

If any person should wish to discontinue the payment of his Annual Premium, the Directors have power either to purchase his Policy for a sum of money payable immediately, or, in consideration of its surrender, to grant a new Policy, without any further Annual Premium, for a sum to be agreed upon, payable at the decease of the life assured. And the person to whom such new Policy is granted, will be entitled, in respect thereof, to participate in the periodical divisions of the Profits.

Persons who shall have been insured for the space of two years, in £1000 or upwards, for the whole continuance of Life, have the power of electing, either from among the Proprietors, or from among themselves, two of the four Auditors of the Society.

Parties may arrange to pay their Premiums either in a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments, during a limited number of years only.

No Entrance money is required; nor any extra Premium on persons in the Army or Navy, unless in actual service.

Assurances may be effected upon the Lives of Persons residing at a distance from London, by their appearing before a solicitor in the country; and the payment of a fine for non-appearance at this Office is then dispensed with.

The Assured are allowed to pass by sea from one part of the United Kingdom to another, and to and from the i-lands of Guernsey, Jersey, Alderney, Sark, and Man; and also, in time of peace, in Queen's ships, and packet or passage vessels, to and from British and Foreign ports in the English Channel, between the Texel and Brest, both inclusive, without any special leave or license from the Directors.

The sums due on the Policies will be paid at the expiration of three months after proof of the requisite facts.

Assurances may be effected through any respectable Attorney or Solicitor in England, of whom Prospectuses may be had. A party may himself effect an Assurance by writing to the Actuary, or attending personally at the Society's Office in FLEET STREET.

The Assured are requested to take notice, that no renewal Premiums are ever received from themselves or their Agents, without printed receipts, signed by two Directors and the Actuary, being issued from this Office.

Attendance is given daily, from Nine o'clock in the morning till Four in the afternoon, at the Office, where the terms of Assurance may be had, Proposals for effecting Assurances received, and every information respecting the Society obtained.

The following are among the advantages of this Society:—

1st. The security of an ample Assurance Fund, besides the subscribed Capital.

2dly. For young and middle-aged lives the LOWEST RATES OF PREMIUMS that entitle the Assured to participate in the profits.

3dly. Three-fourths of the profits divided every fifth year among those who have been Assured four years on the equal scale of premiums. The Bonus declared in 1834 averaged £16 per cent on the Premiums then paid; and the Bonus awarded in 1839, on the average, is equal to £31 per cent on the Premiums received during the last five years.

4thly. Assurers may have the Bonus applied to increase the sum assured, or in reduction of future Premiums, either for the remainder of life, or for the next five years only.

5thly. Policies granted without any charge to the Assured beyond the stamp-duty.

6thly. An option given to Assurers, on the increasing scale of rates, after the lapse of any number of years, to commute the future increasing Premium by an equivalent equal annual one for the remainder of life, and thereafter to participate in the profits. The same advantages are applicable to Assurers on the decreasing scale of rates.

7thly. Policies on the lives of parties dying by suicide, duelling, or by the hands of justice, not void as respects the interest of persons to whom they may have been legally assigned.

8thly. No extra charge for residence in any part of Europe, nor for proceeding (in a decked, sailing, or steam-vessel,) from any one port thereof to another during peace, to Assurers not being seafaring men by profession. Licenses are granted to go to any part of the world, upon terms proportionate to the risks.

THIS Company was established in 1823, and is constituted by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most approved principles, combining the advantages of a Mutual Insurance Society with the security of a subscribed capital. While the Assured have the right of participating septennially in the profits of the *whole business of the Company*, to the extent of *four-fifths*, they are exempted from all risk and responsibility by a subscribed capital of Half a Million, guaranteed by a large and influential body of Proprietors.

At the first periodical investigation, a **BONUS** was added to the Policies which had been in existence for five years, entitled to participate, varying in amount from 20 to 38 per cent. on the Premiums paid, according to the particular circumstance of each individual Insurance.

The subjoined Tables of rates, upon examination, will be found to hold out very advantageous terms to persons affecting Insurances with the Company; and it will be seen, that those who do not wish to participate in the profits, have the option of assuring at a lower rate of premium, without participation.

No charge is made for Entrance Money, nor for Policies beyond the amount of the stamp.

Twenty-one days allowed for payment of Premiums. Losses paid three months after proof of death.

Edinburgh Life Assurance Company—continued.

A liberal price is given for Policies which are to be discontinued.

The Company's business is uniformly conducted on the most liberal and equitable principles, and with the strictest secrecy. A prospectus, containing full Tables, and every other information, may be had at the office in Edinburgh gratis, or from any of the Company's agents.

LIFE DEPARTMENT.

THIS Company effect Life Insurances on equitable principles, with entire exemption from the liability of Partnership.

A large Capital, subscribed by the Proprietors, forms the security of the Assured.

The Premiums may be all paid at once, or in any given number of years, *in the option of the party making the Insurance*; a plan, the advantages of which are strikingly obvious, as it affords an opportunity of securing a certain provision, independent of all after risks from failure in paying the Premium, or of paying a larger Premium, while the means of doing so may be more at command; or the Premiums may be paid quarterly, half-yearly, or yearly, as may suit the convenience of those holding the Policies.

Each Policy for Life is entitled to share the surplus profits, which are declared every Seven Years.

All transactions in the Life Department are considered strictly confidential.

Prompt payment of Claims is made three months after proof of death.

The following rates of Insurance for single Lives are given as specimens from the Tables. The rates for *One* and *Seven* Years, and for the whole period of Life, without Profits, will, it is believed, be found, on *comparison*, very advantageous to the Public, while insurances for the whole period of Life, are equally so, if the benefit to be ultimately derived from a participation of the Profits be taken into account.

The stability and character of the LONDON UNION SOCIETY have been satisfactorily proved by the test of upwards of a century, during which long period claims have been invariably discharged with promptness and liberality.

THE large accumulated Capital and Annual Revenue of this Institution; (which, as a Life Assurance Association, is the oldest and most extensive in point of business in Scotland,) enables the Directors to offer to the Public the full advantages arising from the principle of its constitution, combined with the utmost measure of security.

The accumulated Fund now amounts to upwards of **ONE MILLION ONE HUNDRED AND FIFTY THOUSAND POUNDS STERLING**, and the annual Revenue, to more than **ONE HUNDRED AND NINETY THOUSAND POUNDS STERLING per annum**, and both are in a state of steady and rapid increase.

THIS Company was instituted exclusively for the purchase of Reversionary Rights—absolute or contingent—Annuities or Liferent Interests—Policies of Assurance on Lives—Shares in Government and Private Tontines—and in General of all rights extending over Property Funded or Real, or otherwise well secured—the emergence, or term of payment of which, depends upon some contingency of life or survivorship, susceptible of calculation.

Every man of Business must have found, in the course of his experience, much difficulty in securing or realizing those rights belonging to his Clients, which, among the manifold relations of society and individuals, now so frequently arise, under Contracts of Marriage—Entails—and other Destinations, Family Settlements, and similar Deeds, where limited rights of Liferent and Fee, depending in many cases on complicated contingencies, are secured to Parties having separate and frequently conflicting interests. Even where the contingencies by which such rights may be defeated, are comparatively of a remote and improbable nature, they nevertheless are found to affect their marketable value in perhaps a very disproportionate degree. For although a certain class of contingencies may be guarded against by Counter Assurances, through the medium of some one or other of the numerous Life Offices now established, still it is not easy at all times for individuals, unaccustomed to the consideration of such matters, either to devise the most effectual means, as applicable to any particular case, of securing the protection of Life Assurance, or to provide the necessary Funds for the payment of the requisite Premiums. Parties are thus frequently under the necessity of leaving themselves without the protection of Life Assurance, and thereby running the hazard of having their otherwise valuable rights entirely defeated, or are forced to bring them into the market under every disadvantage. But these difficulties, so formidable, and frequently so oppressive to individuals, disappear, or are greatly modified, when a number of such contingent or reversionary rights are held by a Public Body or Company, who can, with comparative safety, on a large and collective scale, undertake the risk of contingencies, which, in any individual case, it would be most imprudent to hazard; or, if judged expedient, can readily command the means of resorting to the protection of Life Assurance, in the most convenient and efficient form.

THE NORTHERN REVERSION COMPANY was accordingly established with the view of meeting the exigencies above alluded to. The accurate observations which have now been made on the duration of human life—the valuable practical tables which have been deduced from these observations—and the well-ascertained *formule* by which such computations are regulated, enable correct calculations to be made in almost every case, of the true worth and value of any reversionary or liferent right, depending on particular or combined contingencies of life or survivorship. While, in this way, the Capital of a Company may be safely invested with a reasonable prospect of remunerating profit, parties having such rights to dispose of, and wishing to realize their fair marketable value, have the means of doing so afforded to them through the medium of this Company, without undergoing the publicity, expense, and delay, and very frequently the disappointment, attending a Public Sale.

In order, as far as possible, to facilitate the transaction of business with the Company, Forms adapted to various Cases have been prepared, for enabling Parties, or their Agents, to tender proposals of sale. Copies of these forms, as well as every other necessary information, may be readily had on application to the Secretary of the Company, at his Chambers, 12, Duke Street.

LIFE ASSURANCE.

THIS CORPORATION RANKS AMONGST THE FIRST AND MOST FLOURISHING COMPANIES IN SCOTLAND; supported by a large and influential body of Proprietors; giving to the Assured every advantage hitherto offered to the Public.

The PREMIUMS are moderately rated at all ages; and are so modified, by ascending and descending scales and otherwise, as to suit the object of every Insurer, at the least immediate outlay, whether to secure a debt, provide for his family, or to convert income into capital for his own use.

When an Insurance is for the WHOLE PERIOD OF LIFE, ONE HALF OF THE PREMIUMS ONLY REQUIRE TO BE PAID FOR THE FIRST FIVE YEARS AFTER THE DATE OF THE POLICY, the other half may remain unpaid, subject to the payment of interest at five per cent annually, to be deducted at death, or may be previously paid off at convenience. It obviously becomes easy for a person of very moderate income to secure, by this arrangement, a provision for his family; and should he, at any time after effecting the Insurance, succeed to or acquire a fortune, he may relinquish his Policy, having only paid one half the Premiums for the first five years instead of the whole as in other Companies.

PARTICIPATING POLICIES share in the Profits without payment of Entrance Money, or incurring the risk attending Mutual Assurance.

BONUSES may be either added to the sum Insured, or applied in reduction of future Premiums. The last Bonus (declared December, 1837) averaged thirty-seven per cent on the Premiums paid.

LOANS are granted to Policy-Holders, on approved heritable or personal security.

LIFE SOCIETY.

INSTITUTED AT NORWICH, 1808.

ACCUMULATED CAPITAL, UPWARDS OF £1,700,000.

ANNUAL INCOME, £440,000.

THE NORWICH UNION LIFE ASSURANCE SOCIETY Transacts every Description of ASSURANCE and ANNUITY BUSINESS on the most liberal principles, and presents to the Public the following important features:—

First, The Society consists of upwards of SEVEN THOUSAND FIVE HUNDRED MEMBERS.

Second, As a consequence, the advantage arising from an *average decrement of life*, so essential to the prosperity of a Life Insurance Office, is thereby attained.

Third, The SECURITY presented to its Members—arising from an ACCUMULATED FUND OF ONE MILLION SEVEN HUNDRED THOUSAND POUNDS, in addition to an ANNUAL INCOME of £190,000 from *Premiums alone*.

Fourth, The distribution of the *whole Profits* among the parties Insured, and which have already amounted to FOUR HUNDRED AND FORTY-FIVE THOUSAND SEVEN HUNDRED AND NINETY-EIGHT POUNDS.

Fifth, The *Rates of Premium* for Young Lives are lower than those of most other Mutual Assurance Offices, and which, in such cases, are consequently equivalent to an ANNUAL BONUS. NO ENTRANCE MONEY of any Description is demanded.

The Directors have lately submitted the affairs of the Institution to the investigation of parties of the highest professional eminence, appointed by the Members, by whose Report it has been ascertained, that, during the last five years, PROFITS have been realized to the amount of ONE HUNDRED AND TWENTY-FIVE THOUSAND POUNDS—divisible among the Insured.

TABLES of the Society's RATES for INSURANCE and ANNUITIES may be had *gratis* on application at the Office.

FIRE SOCIETY.

INSTITUTED AT NORWICH 1797.—CAPITAL, £550,000.

PROFITS ASSIGNED TO THE INSURED.

PATRONS.

His Grace the Duke of Argyle.
The Right Hon. the Earl of Orford.
The Right Hon. the Earl of Rosebery.

The Right Hon. Lord Saltoun.
The Right. Hon. Lord Stafford.
&c. &c. &c.

This Society was Instituted in the year 1797, and as a proof of public confidence in, and approval of, its fundamental principles and general management, it may be sufficient to state, that the sums Insured amount to nearly FIFTY-EIGHT MILLIONS STERLING.

The INSURERS, while they are free from all responsibility, are, by the Constitution of the Society, made PARTICIPATORS IN ITS SAVINGS, to the extent of THREE-FIFTHS thereof, divisible at intervals of not less than THREE YEARS.

At January 1842, a Dividend was assigned to the Insurers at the rate of FIFTEEN PER CENT on all premiums paid during the preceding four years.

To individuals whose cost for Fire Insurance is at all considerable, such PERIODICAL RETURNS must form an important object.

The Rates charged are as moderate as those of any other Established Office, and all just claims are uniformly discharged with promptitude and liberality.

Where the Sum Insured amounts to £300, no charge is made either for Stamp or Policy.

The Society has Agents in all the principal towns of the Kingdom, of any of whom the Office Rates and Prospectus may be had.

THIS Company is established on the principle of admitting the insured to a participation in the Profits realized. It thus combines the benefit of Mutual Insurance with the security of a Subscribed Capital, and affords to insurers advantages superior to those offered by any other Scottish Proprietary Company.

The SUBSCRIBED CAPITAL affords ample security for the prompt and certain payment of all emerging claims.

The RATES OF PREMIUM are the same with those usually charged by other Scottish Offices.

THREE-FOURTHS of the FREE PROFITS, under deduction of a per centage for a Reserved Fund, are appropriated every five years among the then existing Policies of two or more years' standing.

Printed proposals, showing the Rates and Conditions of Insurance, may be obtained by applying at the Head-Office, or at any of the Company's Agents.

The Second Septennial Division of Profits was declared up to the 31st December 1838, when the average additions made to the Policies entitled to participate in them amounted to about 43 per cent, or nearly ONE HALF of the whole Premiums paid. Similar benefits may be anticipated at the next Septennial Division of Profits, on 31st December 1845. Parties who insure, participate in the Profits from the date of EFFECTING the Insurance.

THE Directors, in order to render the advantages of Life Assurance more general, and to afford greater accommodation to persons desirous of effecting Policies, now offer to the Public two distinct plans for that purpose, viz.—

Persons may either participate in four-fifths or 80 per cent of the estimated profits, or they may effect assurances for a specific object, at *Reduced Rates of Premium*, without participating in the profits of the Society.

The Directors have also had rates calculated for effecting Assurances determinable at *fixed periods*, the sum assured being payable on death, if the party assured die before the specified period; or TO THE PARTY HIMSELF on his attaining the age of 45, 50, 55, or 60.

The advantages which attend this last form of the contract of insurance are too evident to require much illustration; but it may not be out of place to point out a few of them. It enables a creditor insuring his debtor's life, in order to secure a past-due debt, or a present advance of money, to calculate with certainty on recovering his debt, or receiving repayment of his advance at a *fixed period*; and while, in so far as the assured himself is concerned, this system has all the advantages of the ordinary forms of assurance, it possesses this peculiar feature, of enabling every one, however limited his income may be, by the appropriation of a portion of it yearly, during his years of health, strength, and active exertion, to provide for the support of *himself*, as well as those who may be dependent on him, during his declining years.

Assurances to the extent of £5000 may be made on any healthy life, upon any of the above plans.

The Directors are also ready to entertain proposals for Special Risks, the terms of which may be learned on application at the office.

This Society *advances money* on Redeemable Annuity; on the security of Entailed Estates in Scotland; and also on approved *Personal Security*, combined with a Life Insurance, on very favourable terms.

Messrs SHAND, CALDER, & FARQUHAR, W.S.

The following is a Selection from the Society's Table (No. VI.) of

“PREMIUMS to ASSURE ONE HUNDRED POUNDS, payable when the Person assured attains a *specific age*; or sooner, if he should die *before* his attaining that age.”

The Sum Assured payable at the following Ages, viz.

10	£1 18 0	£2 0 5	£2 3 10	£2 8 10

* EXAMPLE.—A person aged 20, may, by an annual payment of £2, 10s. 11d., assure £100, payable to himself, on his attaining the age of 60; or to his representatives, should he die before that age. By annual payments of £2, 15s. 6d., £3, 2s. 6d., and £3, 15s. 4d., the sum assured will be payable at death, or at the ages of 55, 50, and 45 respectively.

ANNUITIES.

The ANNUITIES offered by this Company are larger than those ordinarily granted; and it is the wish of the Directors to submit frankly to the public the grounds on which the expectations of the Directors, that these favourable terms can be offered with perfect safety, are founded.

The method which has been adopted by the Company, of investing the Purchase Money of Annuities, is by its remittance to the Australasian Colonies, and its investment upon mortgage and other first-class securities in those colonies.

Mortgages of the first class in Australasia are as secure as those upon English lands, with this great advantage, that the latter have probably attained their maximum of value, and may be much depreciated by alterations in the Corn or other laws; whilst in those colonies, the money so borrowed is usually laid out in improvements, whereby the security is increased year by year; to which may be added that a public registry of all mortgages kept in the Supreme Court, under an act of the Legislative Council, affords both facility and security to this mode of employing capital.

The application of this method of investment has been guarded by the Directors with every regulation which prudence can dictate, to obtain the most ample security; money is not advanced on the mortgage of any property which does not greatly exceed in value the amount of the sum advanced; the first legal opinion is taken on the title; and the adherence to these and other precautions is secured by the appointment of Trustees and a Board of Colonial Direction at Sydney to superintend these investments.

A higher rate of Annuity might have been offered, but the Directors have preferred the distribution, amongst the Annuitants, at the end of every five years, of a proportion of the profits which at each quinquennial valuation of the assets and liabilities of the Company may be found to have accrued.

These profits will be given by way of addition to the Annuities of the first thousand Annuitants who may have paid £500 or more purchase money.

For the purpose of giving the Annuitants a control over the disposal of the funds arising from the purchase money of Annuities, it is provided, in the Deed of Settlement, that two Directors and one Auditor may be chosen from amongst the Annuitants who have paid £1000 or more purchase money for their Annuities.

ANNUITIES (payable half-yearly), granted for every £100 of Purchase Money.

THIS National Establishment, which was founded on a broad and popular basis by a numerous and respectable Proprietary, continues to grant Insurances on very reasonable terms, and to settle Losses with promptitude and liberality.

Losses happening *within the fifteen days of grace* are also made good by this Company, though the Policy may have been omitted to be renewed, provided only that the Insured show a *bona fide* intention to have renewed it before expiry of that time.

Tables of Premium, and all other particulars, may be had (*free*) at the Company's Head Office in Edinburgh, and at its different Agencies in the Country—for which Agencies, see the Edinburgh Almanack.

This Joint Stock Company, established by Act of Parliament, without limited responsibility affords the most perfect Security in an ample paid-up Capital, and in the great success which has attended it since its commencement in 1834, and the large accumulation of Premiums which has taken place.

On the 1st of July 1841, the Company, at their General Meeting, declared an addition of one half to the Sums paid by the Stockholders, and appropriated to those holding Assurances at the participating rate L.2 per cent per Annum, from the dates of their policies, so that the addition to a policy for L.1000, in force for the previous 5 years, has been L.100, making it in all L.1,100. The Premiums payable to the Company are nevertheless very moderate, and only one half of them, when an Insurance is for life, need be paid for the first 5 years after the date of the policy; the other half, subject to the payment of interest at 5 per cent annually, to be deducted at death, or paid off at convenience. By this arrangement, it becomes easy for a person of moderate income to secure a provision for his family; and the policy may be relinquished on the acquisition of a fortune, within the 5 years, the Assured having paid only one half of the Premiums, instead of the whole, according to the usual practice.

Thus a person of 25 years old may, by an annual payment of L.28 : 16 : 3, for the first five years, and afterwards of the full premium, L.57 : 12 : 6., secure to his widow and children at his death payment of no less than L.3000, subject only to the deduction of L.144 : 1 : 3, being the amount of premiums unpaid. A person requiring a temporary advance of money may also, in terms of this arrangement, should he within 5 years relinquish the policy of Assurance by means of which he has obtained the advance, give it up on payment merely of one half of the Premiums instead of the whole, according to the usage of most other Offices.

The great facilities afforded by the Company, in these and other respects, are such that it really appears to be a moral duty in every parent who is not possessed of a fortune, but of an income, however moderate, to Insure his life for a sum which may yield a comfortable provision for his family.

THE system of Life Insurance in this Country has assumed such importance, that to enlarge on its advantages would be altogether superfluous. The British Public have, happily, been long familiar with a scheme, which, by a small annual sacrifice, secures for poverty the children and relatives of persons whose incomes are wholly or chiefly dependent on their lives;—which is capable of a very useful application to marriage settlements;—and which is eminently calculated to give stability to a vast variety of important transactions. It is not wonderful, that a plan, which embraces so many beneficial objects, should have powerfully engaged the public attention, and mixed itself, widely and intimately, with the whole business of life.

The PELICAN LIFE INSURANCE COMPANY has, for upwards of forty years, held a distinguished rank among the numerous establishments connected with these great purposes. The confidence the Directors have so long enjoyed they are naturally ambitious to retain. They have accordingly instituted a careful enquiry into the business of the office since the establishment of the Company in 1797, and, principally upon this experience, they have constructed an entirely new table of rates, which they now submit to the Public.

In addition to the table already alluded to, which offers as low a rate of premium as the Directors believe to be consistent with the security of the assured, they have, in consequence of the strong bias manifested by the public to the system of a return of premium or addition to the policy, constructed another table at a somewhat higher rate of premium; the assurers under which will form a distinct branch of the Company's business, to commence from the 3d day of July 1840;—and the Directors propose *thenceforth* at the end of every seven years, after a valuation of the outstanding risk in this class, and after a reasonable deduction for charges and management, to return to the then holders of policies, *on this scale* of premium, not less than a moiety of any surplus that may then appear, to be ascertained and apportioned by the Directors; and, thereupon, the holders of policies for whole life which have been in force for that period, shall, at the option of the assured, (to be declared at the time of effecting the insurance,) be entitled to have the sum, that at each septennial valuation may be appropriated to their respective policies, applied according to either of the rules following, viz. :—

1st, BY AN IMMEDIATE PAYMENT OF THE SUM SO APPROPRIATED; OR,

2dly, BY AN EQUIVALENT REDUCTION IN THE FUTURE ANNUAL PREMIUMS; OR,

3dly, BY AN EQUIVALENT ADDITION TO THE AMOUNT OF THE POLICY, (AND PAYABLE THEREWITH.)

The PELICAN LIFE INSURANCE COMPANY insure, on equitable terms, the lives of persons resident abroad, or about to proceed to foreign climates; and, in this department, the PELICAN OFFICE presents great advantages to officers of the Army and Navy, as no extra charge is made for home service. The moderate addition required from such individuals, for change of climate, may be covered by an average rate, or the rate for any particular destination may be made the matter of special agreement, on taking out the policy; the Insurer paying only the home premium until the contingency contemplated shall happen. In this respect, therefore, the PELICAN OFFICE offers an advantage that recommends itself, equally to persons assuring their own lives, and to solicitors, agents, and others, whose object is indemnity.—The Directors are, at all times, willing to purchase policies on the most liberal terms—an arrangement obviously desirable, when the object of an Insurance has been effected.

THE Company consists of a very numerous and influential body of Proprietors, who interpose THE SECURITY OF A LARGE SUBSCRIBED CAPITAL, in addition to that afforded by the Accumulated Fund of Premiums already in existence. The Assured are relieved from any kind of risk or responsibility, and have the most undoubted guarantee furnished them for all the Company's engagements.

The Company has adopted the plan of an ANNUAL DIVISION OF PROFITS ON A PRINCIPLE WHICH IT IS BELIEVED OFFERS ADVANTAGES NEVER BEFORE PRESENTED; and which has the effect of EQUITABLY SECURING THE INTERESTS OF ALL CLASSES OF THE ASSURED. This plan has been adopted on the principle, that if a party shall be found to have contributed to the profits of the Company, by payment of a larger Premium than what was absolutely required, he should receive repayment of his share of the surplus out of a division of these profits at the earliest possible period after that condition of security has been fulfilled.

The first ascertainment of profits is made at the end of seven years from the Company's Institution, so as to secure an average of years—TWO-THIRDS OF THE WHOLE PROFITS then ascertained by this average are divided among those entitled to share therein, proportionally to the number of years during which their Policies have existed. After this first investigation and ascertainment of average, AN ANNUAL DIVISION OF PROFITS, based upon that average, is made, and each Policy Holder, entitled to participate, ANNUALLY receives the proper vested addition falling to be made to his Assurance. Other Companies who have adopted the plan of an annual division, divide after the first investigation (which is made at the close of a series of years,) the profits of only one year of that series; and thereafter do not allow the Assured, who may subsequently join, to participate at all, till their Policies be of a certain standing; thus making the Assured contribute to raise up a guarantee fund in which they are not permitted to share.

Prospectus, Tables of Rates, and every other information, may be obtained at the Company's Offices, or forwarded by post to any part of the country.

The distinguishing features of this Company will be most conveniently pointed out by referring to Policies, as Family Provision and Money Transaction Policies.

FAMILY PROVISION POLICIES.—In the well-founded belief that Life Assurance business is profitable, persons making Provisions for their Families generally prefer Assurances which may carry with them a right to Participate in the Profits to be realized by the Company during the currency of their Policies. By the deed of constitution of this Company, the participating Assured are entitled to the *whole of the mutual profits*, as if they had been Assured in a purely Mutual Society; and they have, at the same time, the security not only of the funds of the Company, arising from the accumulated premiums, but also the proprietary funds and subscribed capital of the Company. To the Shareholders are allotted only those profits which are realized by the investment of their own paid capital, and from the excess of Profits is peculiar to this Company; and is obviously very advantageous to the Assured of the Participating Class.

MONEY TRANSACTION POLICIES.—Considerable changes are requisite in the ordinary practice and rules of Life Offices, to render this class of Policies valid and unimpeachable documents of security, which no unforeseen circumstances or future accidents can invalidate. This Company has endeavoured, and they think successfully, to render their Policies indefeasible and negotiable securities; and to effect this object the Company has introduced the following clause into their Deed of Settlement:—

CLAUSE 78.—“That every Policy issued by the Company shall be indefeasible and indisputable, and the fact of the issuing of the same shall be conclusive evidence of its validity, and it shall not be lawful for the Company to delay payment of the money assured thereby, on the ground of any error, mistake, or omission, however important, made by or on the part of the person or persons effecting the same, and that on the contrary, the amount receivable under the same shall be paid at the time stipulated by the Policy, to the person entitled thereto, as if no such error, mistake, or omission had been made or discovered, unless the Policy shall have been obtained by fraudulent misrepresentation.”

To enable a party to effect an Assurance at the *least possible expense*, and to entitle him to discontinue it at a less sacrifice than by any other plan, a seven years' *half-premium system* has been introduced; and, upon comparing the following scale with any other which has been devised for reducing present payments, it will be perceived how much more economically a loan transaction can be fortified by this kind of Policy than by any other. The Half-premium system possesses a further advantage over temporary Assurances, or those for a Term of Years, from the Assured having the option of continuing for Life the Policy which he may have procured for a mere temporary purpose.

Imperial Life Insurance Company—Continued.

FOUR-FIFTHS of the PROFITS made by this Company will be appropriated to Policies every FIVE YEARS, without the Insured incurring the personal responsibility attached to Mutual Societies.

THE IMPERIAL LIFE INSURANCE COMPANY was established by a Deed of Settlement, dated the 28th November 1820, by which Two-Thirds of the Profits were to be added to Policies for the whole term of Life, at the end of every Ten Years. The first of these decennial appropriations was made in the year 1831, and the second in 1841.

Additions to Policies.—The Additions made to Policies of Twenty Years' standing on the 31st of January 1841, were *Thirty-five per cent on the Sums Insured.*

Reduction of Premium.—If the additions on Policies of Twenty Years' standing on the 31st of January 1841, are surrendered, the Insured will be entitled to a reduction of the future Annual Premiums for the remainder of life, varying in extent from *Seventy-seven to Thirty-eight per cent*, according to the age of the life insured; and future additions, if surrendered, will entitle the Insured to further reductions until the Premiums entirely cease, after which the future Share of Profits will be added to the Policy, or the value of such additions paid in Cash.

Increased Share of Profits.—Under the Provisions of a Special Act of Parliament obtained by the Company, (4 and 5 Victoria, cap. 94,) it has been resolved to appropriate *Four-fifths* instead of Two-thirds of the disposable Profits as a Reversionary Bonus to Policies which may be issued after the 4th of January 1842, and which shall be in force at the end of every *Five Years*, from the 31st of January 1841; such Bonus to be in proportion to the Amount which the Company would have to pay at the death of the person whose life is insured, and to the number of Annual Premiums paid on the Policy subsequent to the then last appropriation of Profits. A surrender of such reversionary Bonus will entitle the parties to a reduction or extinction of future Premiums; or the value thereof will be paid in Cash, or applied in such other manner as may best suit the convenience of the Insured, and may be specially agreed upon.

Purchase of Policies.—If any person should become desirous of discontinuing an Insurance effected at this Office, for the whole term of life, the Company will purchase the Interest in such Policy at a fair value.

Loans on Policies.—The Directors will advance Money on Loan on the Security of Policies effected with this Company, for the whole term of life.

Insurances without Participation in Profits.—Policies of every description may be effected with the Company without Participation in Profits, at considerably reduced Rates of Premium.

The Regulations of the Company and its Conditions of Insurance will be found to embrace all the important advantages offered by other firmly established Companies.

Attendance daily, from Ten till Four o'Clock, at the Offices in Sun-Court, Cornhill, and St James's Street, where detailed Prospectuses may be had, or of any of the Company's Agents in the principal Towns throughout the Kingdom.

Evening Class for Elocution and Recitation.....	1 1 0	...

Twelve Private Lessons in Elocution, for One Pupil, Three Guineas; for Two Pupils, Four Guineas.

QUARTER DAYS, 1ST OCTOBER, 15TH DECEMBER, 1ST MARCH, AND 15TH MAY.

ALL PAYMENTS PER ADVANCE.

It is not Mr MACDONALD's intention at present, either to give a full detail of the plan he pursues in his School, or to state particularly the success of his former Pupils who have attended the High School, or other Classical Seminaries. He thinks, however, that it may not be inexpedient to notice, that for the last five years, one or more of his Pupils have carried off, at the High School, the highest honours given to the Class to which they belonged. At the Examination of the High School in August last, (besides a number of his Pupils who received Prizes,) he has the satisfaction of stating, that twelve Prizes were awarded, in equal proportions, to three of his Pupils.

REFERENCES AND CRITICAL NOTICES.

With regard to Character and Ability, Mr Macdonald has permission to refer to the Very Reverend Principal Lee, D.D., the Rev. Dr Muir, the Rev. Dr D. Ritchie of St Andrew's Church, and the Rev. Dr Candlish. Also, besides numerous Certificates in Mr Macdonald's possession, he takes the liberty of referring to the following:—

From the Rev. Dr Dickson.—I hereby certify, that I have been acquainted with Mr John Macdonald, Teacher, for a number of years, during which I have always had reason to regard him as a man of excellent Christian principle, and exemplary moral character. Two of my own children attended his school, with whose progress, under his tuition, I was much satisfied.
West-Kirk Manse, Jan. 22, 1833.

From James Gall, Esq., Author of the Lesson System of Teaching, &c.—I have had frequent opportunities of judging of Mr John Macdonald's abilities as a Teacher, in which he combines mildness with firmness in an uncommon degree, regulated by a cautious prudence, which I found produced the happiest effects on my own children, three of whom were taught by him at different times. There is one peculiar characteristic in his training above any other teacher I have known;—which is a great facility in making his pupils understand and apply what they read and learn. The advantages of this in my children are felt every day; and I have reason to believe the effects of this judicious management will be increasingly useful through life.

Myrtle Bank, Trinity, 1st February 1833.

Sacred Readings.—"Mr Macdonald delivered a second selection of *Sacred Readings* in the Hopetoun Rooms on the evening of Monday last. The attempt to render such readings interesting is a bold one, and is such as few would risk; but in Mr Macdonald's hands it succeeded nobly; better, indeed, than almost any person could have predicted. This gentleman's ear, taste, and action, are all admirable; and nothing, whether grave or gay, sacred or profane, can but succeed in his hands."—Edinburgh Chronicle, March 2, 1833.

"On Thursday, the Examination of Mr Macdonald's Academy took place in the presence of a very numerous audience. We need do no more than say, that the appearance made by his pupils on this occasion fully sustained the very high character which he has acquired as a Teacher of youth. We were particularly pleased with the intimate acquaintance with the Word of God, and the truths of revelation which they displayed; the readiness and accuracy of their answers to questions on these subjects, clearly showing the care which is taken by Mr Macdonald in their religious instruction. His success as a Teacher of Elocution, too, was evinced by the excellent style in which the recitations of his pupils were given—a style which, for simplicity and expressiveness, we have never seen equalled. The great success of Mr Macdonald as a Teacher is, we are convinced, no more than his peculiar talents, his energy, and his character deserve."—Witness, July 31, 1841.

Mr Macdonald's Readings and Recitations.—"On Thursday night, Mr Macdonald delivered a series of Readings and Recitations in the Hopetoun Rooms. Mr Macdonald acquitted himself on this occasion, as on every other, with the greatest credit to himself. His reading was at once chaste, forcible, and pleasing; and the warm manner in which he was applauded, spoke the feelings of the audience. Not the least pleasing part of the evening's entertainment was the appearance of one of Mr Macdonald's pupils, a mere child, but who showed what admirable teaching can accomplish even with the youngest."—Edinburgh Evening Post and Scottish Standard, Nov. 27, 1841.

CHRISTIAN DOCTRINE AND DUTY.

Being a Selection of Scripture Passages illustrative of this Title. (Marked with Emphases and Inflections.)
 Prefixed to which is a summary of the Rules of Elocution.

The Appendix contains an Abstract of Scripture Geography, &c.

By JOHN MACDONALD, Teacher of English, Geography, and Elocution, Edinburgh.

My Dear Sir,—I have received your most interesting volume, which I am thoroughly persuaded is to prove, in all the points of view which you have contemplated, a highly acceptable and useful manual.

7, Danube Street.

WILLIAM MUIR, D.D.

“A capital text-book for schools, students, and private families.”—Caledonian Mercury.

“This work ought to be in the possession of every teacher of youth in Scotland.”—Glasg. Constitutional.

“The design, execution, and tendency of this little volume are excellent. In many respects the plan is wholly original, and the author has been equally successful in presenting the student of Scripture with a help to the formation of accurate views, sound principles, and good taste. The first part of the work is devoted to a summary of the rules of Elocution; and, of all the rhetorical treatises that have come in our way, we unhesitatingly give the palm to this. We have been thus minute, because we really think Mr Macdonald’s a valuable book, and one which it is our duty to recommend to teachers of week-day and Sabbath schools, as well as to families and private individuals. It is equally fitted to be useful to young and old, learned and illiterate; and we are not at all surprised to find that it has called forth the unqualified praises of distinguished clergymen.”—Scottish Guardian.

“The author of this excellent volume is well known as a most respectable and highly successful teacher of the art of speaking, as well as of other essential branches of practical education. This work is intended, not only to convey a clear and comprehensive view of Christian Doctrine and Duty, derived directly from the Holy Scriptures, but to impress upon the youthful student the rules of elocution, and their practical application generally. The manner in which Mr Macdonald has effected these objects is at once simple, ingenious, and impressive. His method of notation is particularly calculated to arrest the notice, and to direct the judgment of the reader. We recommend the work to general use.”—Edinburgh Evening Post.

It will be found very convenient for those who take Shower Baths throughout the year, as they can have Tepid Water in the Winter months with very little trouble. The design is entirely new, and the Bath is allowed to be the handsomest that has yet been produced in Edinburgh, and is well worthy of a place in the Bed-room, as a piece of useful and ornamental furniture.

Dr Cornwall, 25 Royal Circus.

CONSULTING SURGEON.

Professor Syme, 9, Charlotte Square.

THIS Institution is intended for the benefit of a numerous class of individuals, who, when labouring under disease, though unable to pay for professional attendance, are unwilling to be considered objects of charity, and enter a public hospital. It will be found advantageous for Servants and Lodgers, who cannot, from their peculiar situations, obtain the necessary attentions and comforts during sickness; and also for patients coming from the country in quest of Medical or Surgical aid, to whom the expense of lodging and attendance, perhaps for a protracted period, would become oppressive.

The House is situated in a quiet and healthy part of the town; the building itself is commodious, the rooms airy, and provided with every necessary convenience; and all the arrangements have been made, with a view to the seclusion and comfort of the patient.

The rates of admission are 10s. or £1 per week, according to the accommodation required; and these sums are calculated as barely adequate to cover the necessary outlay for nurses, diets, and medicines.

Patients wishing to be admitted to MINTO HOUSE may apply to any of the Medical Officers, and if resident in the country, should communicate their intention before coming to town, that arrangements may be made for their immediate reception.

Attached to the Hospital is a DISPENSARY, for the relief of the diseased poor. The Medical Officers attend every day at one o'clock, when advice and medicines are given; and those Patients who are unable to attend at the Institution, are visited at their own houses by the Pupils, who also afford assistance in urgent cases at any hour of the day or night.

SUPERVISION

OF THE COAL TRADE,

IN TERMS OF ACT OF PARLIAMENT.

THE EDINBURGH and DALKEITH RAILWAY COMPANY request the attention of the Public to their REGULATIONS for the PREVENTION of FRAUDS in the SUPPLY of COALS, as stated below, by which so many fraudulent Dealers have been detected and punished, or driven out of the Trade, since the opening of the Railway; and which, if attended to by

the Purchasers of Coals, afford complete security against frauds in either the weight or the quality.

The Railway Company beg to remind the Public, that they have no interest in the Coal Trade of the Railway, but in its being extensive and respectable. Having provided the Coal Proprietors of Mid-Lothian with commodious Depots, opening into one of the greatest thoroughfares of the City, they were empowered, by Act of Parliament, to act as umpires between the Dealers in Coal and the Public, and TO COMPEL ALL COAL TO UNDERGO THE SCRUTINY OF THEIR INSPECTORS. How well the Railway Company have discharged the duty thus intrusted to them by Parliament, is proved by their having established a new and effectual method of detecting the frauds which had with impunity disgraced the Coal Trade prior to the opening of the Railway; and, by the fact that, in almost every conviction of fraudulent Dealers in the Police Court, the information and the proof have been furnished by the Railway Weighers and their assistants.

The result of the Company's system is, that fraudulent Dealers are now deterred from the Railway by the certainty of detection. The last instance, which occurred some time since, may be related, in order to impress upon the Public the necessity of vigilance on their part, in attending to the rules annexed below:—Two Carters purchased 17 cwt. of New Craighall Household Coals in the Railway Depot, and attempted to deliver them to a lady in town as a Ton of New Craighall Jewel Coal, presenting a false certificate. The lady was deceived; but two persons employed by the Railway Inspector had followed the carters, detected the fraud in the only way such frauds can be detected; and, having obtained the false certificate from the lady, furnished complete proof against the delinquents.

For the expense of this supervising Establishment the Railway Company make no charge;—their Inspectors register the weight and quality of the Coal, and the name of the carter, and they watch the conduct of the carter as he passes along the streets—*all gratis.*

RULES.

1st. Never receive Coals without the Inspector's certificate stamp of weight and quality. A fac-simile of which is given below, as stamped in red colour on each invoice accompanying coal that is correct in weight and in quality.

2dly, Attend to the hour of departure marked on the invoice, and if the carter appears to have more time than necessary reject his coals.

3dly, Never allow the certificate to be kept and carried away by the carter; but let it be destroyed, or inclosed back to the Manager or

the Inspector if it has any appearance of being a forgery.

4thly, If Coals appear, on delivery, to be of a different quality from what were ordered, a competent person shall be sent to inspect them, on application being made to the Inspector.

N.B.—His address is—The Coal Inspector, Edinburgh and Dalkeith Railway, St Leonard's Depot.

OPINIONS OF THE PRESS.

"This is a work that we fear there exists too much need for, to cause us to hesitate to recommend it for general perusal. Every branch of those frightful maladies, whether the result of immoral habits or secret vices, is here succinctly treated, and divested of all medical technicality; plain and easy directions are given for the best mode to be pursued in all cases, however complicated or apparently hopeless. To the married, as well as the unmarried, this little work alike affords consolation and cure in peculiar cases, and we are doing a service to society in recommending it to general notice."—*Essex and Herts Mercury*.

"This work, a Seventh Edition of which is now presented to the public, ten thousand copies having been exhausted since its first appearance, has been very much improved and enlarged by the addition of a more extended and clear detail of general principles, as also by the insertion of several new and highly interesting cases. We feel no hesitation in saying, that there is no member of society by whom the book will not be found useful, whether such person hold the relation of a parent, a preceptor, or a clergyman."—*Sun, Evening Paper*.

"Messrs Curtis's work entitled 'Manhood,' is one of the few books now coming before the public on such a subject, which can lay claim to the character of being strictly professional, at the same time that, it is fully intelligible to all who read it. The moral and medical precepts given in it render it invaluable."—*Magnet*.

"The perusal of Messrs Curtis's book, en-

titled 'Manhood,' has really astonished us by developing a series of maladies, the never-failing consequence of the vicious habit of which it treats. The clear connexion pointed out between the assigned cause and the effects, is preceptible to every capacity."—*Age*.

Messrs Curtis and Co. are to be consulted daily at their residence, No. 7, Frith Street, Soho Square, London.

Country Patients are requested to be as minute as possible in the detail of their cases, as to the duration of the complaint, the symptoms, age, general habits of living, and occupation in life of the party; the communication must be accompanied by the usual consultation fee of L.1; and in all cases the most inviolable secrecy may be relied on.

PROSPECTUS

OF

THE SCOTTISH AMICABLE

LIFE ASSURANCE SOCIETY.

THERE is no man ignorant of the uncertainty of his life; but this universal uncertainty, in the case of individuals, diminishes, when applied to numbers; and although it cannot be said that this or that person will live one or two years, the numbers that will survive or die annually out of the mass may be foretold with great precision,—so much so, that it has been supposed probable that there will yet be discovered some exact law of mortality. Such is the general principle on which Life Insurance is founded. It is the uncertainty of life in the individual that leads him to desire a security to his family against the poverty in which his premature death might involve them. It is the uniform rate of mortality or vitality in the mass, that enables them to offer this comfort to the individual.—“ Though based upon self-interest,” says a writer on the subject, “ yet it is the most enlightened and benevolent form which the projects of self-interest ever took.”

Considering how many in this country of enterprise, mainly or solely support their families by personal knowledge or exertions, it might have been supposed that Life Insurance was universally practised; but this is far from being the case, and for one family who are saved from poverty by its blessings there are many who are plunged in misery from its neglect. Although this does partly arise from ignorance on the subject, it is probably less the result of any theoretical doubt of its advantages, than of procrastination and practical disbelief of the undeniable uncertainty of life—and

health; for it must be kept in view that the latter is also precarious, and that if a person wait till he is warned by sickness of the duty of Life Insurance, the door may be closed against him; and the very circumstance of his inability to effect an Insurance, may tend to diminish his chance of long life. It was well remarked by a member of the Society at one of the general meetings, that "in his opinion, Life Assurance Societies were unquestionably, under Providence, the means of prolonging human existence, by promoting that comfort and peace of mind so essential to health, which arise from the consideration that we have made provision for our families, or near and dear relatives, whom we might leave at our death." The succeeding remarks of the gentleman alluded to, were so apposite to the general advantage of Life Insurance, that they are here transcribed. "In a moral point of view, therefore," he continued, "Life Assurance should not be overlooked by any class of society.—Many, and especially in this mercantile community, had not taken advantage of such institutions, from being unacquainted with their principles, and not reflecting how much the ease and comfort or affluence of their families was dependant on their life; their capital may now be yielding them 15 or 20 per cent., while at their death it might, when realised for their families, be invested in government or other securities, yielding comparatively a trifling annual return. He trusted the members would not only feel themselves convinced of these advantages, but true to the name of an 'Amicable Society,' endeavour to induce others to come forward and partake of its benefits. He would only add, that in thus providing for their wives and families, they were performing a religious as well as a moral duty, for 'he that provides not for his own, and specially for those of his own household, is worse than an infidel.'"

The very enunciation of the principle of Life Insurance suggests the idea of Mutual Association to secure its benefits. And although in the commencement of the system, and comparative ignorance of the subject, the guarantee of a proprietary might be viewed with favour, the immense profits made by proprietary companies, now form an additional practical argument for the Mutual System by which these profits are preserved for the assured. "It has been found," says a popular writer on the subject, "that by the plan of Mutual Assurance all desirable security

is afforded, while the profits are divisible among the only parties who have any right to them—the Assurers. Mutual Assurance Societies are therefore rapidly supplanting Assurance Companies, most of which will probably in a few years cease to exist.”

The Scottish Amicable Life Assurance Society has accordingly been established on the Mutual System, with no view to personal advantage among its promoters, farther than to obtain for themselves and their fellow-members, the full benefits which may be derived from their contributions.

In regard to the mode of division of the profits, that adopted by the Society has been found to be fair, simple, and popular, the additions being in proportion to the duration and amount of the Policies, calculated from the date of the Policy or previous investigation.

The additions which have already been made to the Policies, amount on those of thirteen years standing to more than *one-fifth* of the sums insured, varying, if stated in reference to the Premiums, as is usual with many offices, according to the ages from fifty to twenty, from 35 to 75 per cent. of the premiums paid. To Policies of less duration, proportional additions have been made, with this reservation, that the additions made to Policies of less than five years' standing are not exigible if the parties die before the expiry of the five years. The following Table shows at different ages the effect on a Policy of £1,000 of Bonus additions at a similar rate, to what has been declared:—

At end of Years.	Policy of £1,000, with additions.	Sum of Premiums paid according to Ages at Entry.

55	2192 12 3	1162 0 0				

The above Table has been extended so as to show the effect, to parties entering at the ages stated, should they live to seventy-five. Of course, in the event of the early falling of a Policy, it must be more than the sum of premiums paid; but it will be observed, that supposing the parties to live to seventy-five, then

even, as well as at every intervening period, does the Policy, with additions, greatly exceed the sum of the premiums paid.

That in all cases they will return their members more than their contributions, with accumulated interest, and at a high rate, the Directors will not, like the advertisements of some offices, pretend to insinuate. "Public ignorance is the principle to which these advertisements appeal," and the pretensions of that office are to be mistrusted, that seeks to mislead the public to suppose that all must gain. They would accordingly point out that, in the above statement, interest is not taken into account; but keeping this in view, they think that it strikingly illustrates the effects of the accumulation of interest, and the general profits of the business, in making the sacrifice to secure the comfort of Insurance, trifling even to the man whom Providence pleases to bless with long life.*

Such are the very great benefits which will result from a declaration of additions similar to what has been made; but an intending Assurer ought not to be satisfied merely with a statement of what additions an office has made, he ought to enquire how far the arrangements made by the office, for ascertaining and dividing its profits, are favourable for him as a new entrant,—in particular—

1st, What portion, if any, of the previous profits has been reserved?

2d, What part of the profits, arising during his connection with the Society, will be divided before his Policy becomes entitled to participate in them?

3d, What claims will arise upon the profits at next investigation, on account of Policies in existence at the previous investigation, but to which no profits were then allotted?

4th, Does the mode of allotment of the profits give superior advantages to Policies of old standing, and consequently not allow the new entrants to draw their due share of the profits?

These are, perhaps, the main points requiring attention, and they are of far more importance than the simple amount of past

* All will acknowledge the advantage of Life Insurance, to the family of the man who dies soon after having opened a policy on his life; but those who grumble at having to pay many premiums, should in this, see rather cause of thankfulness for the enjoyment of long life. The man who provides for his family against the consequences of premature death, is not to regret that he escapes this calamity.

Bonus declared. It is only by such considerations that any judgment can be formed of the probable future additions. It would be invidious to single out offices,—but no respectability of management appears to prevent the insinuation of the prospect of such additions, as it will be perfectly impossible to realise. On all these points, this office can give a favourable reply to a new entrant; and although they are aware that many members consider they have well-founded grounds for imputing to the Directors and constitution of the Society too much caution, in leaving undivided at the late investigation so large a proportion of the profits, they cannot refrain from again subjecting themselves to the same reflections, by pointing out the obvious argument of this objection, for the favourable position in which it places new entrants.

Upon these grounds, then, the Directors can confidently look forward, at future investigations, to as favourable results at least as at the past; and without making any special estimate of what the actual additions may be, they maintain, that with the large reservation of the profits that has been made, the present members, and those who join them, are secured at future investigations in as great additions as can with propriety be made by any office.

There is another point which the Directors feel themselves called upon to notice,—that in terms of the constitution, the Directors, ordinary and extraordinary, must be members of the Society, by holding Policies of Insurance for Life with it of more than three years' standing. It is proper to state this, as it is notorious that in many Insurance Companies, names of parties appear as Extraordinary, and sometimes Ordinary Directors, who have no other connection with them, or at any rate are not Insured in the offices, and do not by their appointment show to intending Assurers that they have adopted the principles their names are brought forward to advocate, as is secured by the rule of this Society, under which the noblemen and gentlemen, who are Directors of it, have been appointed.

There are now subjoined

A FEW PRACTICAL REMARKS ON THE TABLES OF RATES.

TABLE I. contains the Annual Premiums payable during life for £100, with additions to be paid at death. This is the ordinary kind of Insurance. A person, it will be observed, at twenty,

pays £2 : 1 : 6 per cent., so that for the payment of less than twenty guineas a-year, a young man of that age will secure £1000, with additions, at his death, whenever it happens; and should he attain to an advanced age, the sum in his Policy will, in all probability, be more than doubled by the additions.

TABLE II. gives the single payment per cent. required to insure the same benefits as are secured by the annual payments in TABLE I. This is a peculiarly favourable mode for fundholders or landed proprietors, or others desirous of insuring, who are not making any large rate of interest for their money. For instance, a person of the age of twenty-nine, for a single payment of about £2000, will receive a policy of £5000, with additions. Supposing the same additions as have been made, and the return he has been obtaining on the £2000 to have been $3\frac{1}{2}$ per cent., his annual loss of income will be £70, while he will secure at his death more than this amount in additions to his Policy, and £3000 besides.

This is also a very desirable species of insurance for a young man marrying, who is required to provide a sum for his wife or children at his death. Supposing his age to be, as in the previous instance, twenty-nine, and that his wife is possessed of £5000, he may, by paying down £2000, obtain the use of £3000, and secure the £5000 for his family at his death, together with the accumulating Bonuses on a Policy of £5000. This kind of insurance may be likewise very beneficially adopted by landed proprietors who can borrow on their estates at a moderate rate of interest.

TABLE III. gives the Rates per cent. to secure the same benefits as above by five, ten, fifteen, and twenty annual payments; also, by payments to cease at sixty or sixty-five. The Rates for any other number of years may be learned by application at the Office. A person, while his affairs are prospering, and having no pressing demands on his income, may be desirous of at once securing a sum for his family against all contingencies. At the age of thirty, £2000 with additions may be secured by five annual payments of £180; and should the party not wish to withdraw the Policy from his control, he will be able at any time to receive the whole sum paid, or nearly so, from the Office, in loan, should he require it.

The payments to cease at sixty or sixty-five, exceed, at most ages, very little those for the whole term of life. Many people are desirous to look forward to some period when their payments may cease, and this object may be obtained by adopting one of the scales now mentioned, by a very trifling addition to the premium for life.

Additions are made to the Policies in all the preceding classes, and along with the first payment, an entry-money of 10s. per £100 is payable, but may be remitted on the party giving up his right to participate in the profits of the Society for one year. No additions are made to the Policies in the following classes, nor is any entry-money charged.

TABLE IV. contains the Annual Premiums during life for £100, without additions, payable at death. This Table, calculated on the assumption of a permanent Annual Bonus less than what may be expected, has been framed with the view of meeting the few cases where a small present payment is more desired than a future addition.

TABLE V. combines the advantages of Insurance with provision for advanced age. It contains a Table of Annual Premiums, ceasing before a party attains the age of fifty-five, sixty, or sixty-five, or at death, for £100, without additions, to be paid twelve months after payment of the last Premium, should he reach the ages mentioned, or six months after death, whichever happens first. These Premiums are in some cases less than those for life, for £100, with additions. Besides other advantages of this scale, it would enable a party who had to give security for a debt, by insurance, to see the prospect of being relieved from the debt during his lifetime.

TABLE VI. contains the Rates for temporary Insurances, for one or seven years. This species of Insurance is adopted to secure temporary loans,—to secure property which will fall to the individual if he should survive a certain period,—sometimes by parties who are making large profits, and wish to secure a certain sum to their families in case of their death before they can realize

them. Suppose a party of the age of thirty, is laying aside £500 a-year, and wishes to insure his family in £3500, he would pay for a seven year's Policy for £3500,—£43, 15s.; but by dropping £500 of the Policy every year, he would secure his object by paying in the

The Rates for any other term of years will be given at the Office. The decreasing kind of insurance now suggested is on a similar principle to what is recommended by Professor de Morgan.

In the usual case of a Life Insurance, the Office acts both the part of a deposit-bank for savings, and of insurance against premature death; but by the plan alluded to, a party would still improve his own savings, and get the Office to insure against his not living to complete the accumulation he looked forward to. To a party who can so regulate his affairs, and who is making a high rate of interest by his money, this would be a desirable kind of insurance. The views of parties are, however, so different, that it would be impossible to frame Tables which would be generally applicable; and parties desiring this kind of insurance, would require to state their case to the Office for calculation, mentioning the sum they wish to provide at present, and the reduction on account of their expected savings they would wish to be made, annually or otherwise, on the sum in the Policy.

TABLE VII. contains the Rates per cent. for endowments for children; the single and annual payments payable to secure sums for children on attaining the ages of sixteen, eighteen, and twenty-one. A scale is also added, Table VIII, of Premiums payable, to be returned (without interest) in the event of the death of the nominee, before attaining the age named.

DAWSON'S PATENT DRIER.

The superiority of this Drier over all others, (it being well attested by some of the most eminent Painters), in causing all kinds of Paints to dry in a much shorter period, than can be obtained by the use of any other Driers known to the trade. It is particularly recommended for Ship Painting, out of door Work, or Public Offices, where quick dispatch is required. W. D. begs to intimate, that in consequence of various spurious compositions having been sent out in Powder, and other Shapes, as Patent Drier, to the detriment of the Genuine Article, to prevent such imposition in future, each Cask will be branded "DAWSON'S PATENT DRIER."

N.B.—None are Genuine unless Branded as above.

DAWSON'S ROYAL VICTORIA BLUE, FOR BEAUTIFYING FAMILY LINEN, &c.

To Ladies who are particular in the appearance and colour of their MUSLINS, LACES, and general FAMILY LINEN—to Laundresses, who would save themselves expense and repeated labour of fresh rinsings—should use only DAWSON'S ROYAL VICTORIA BLUE; it can with confidence be recommended, as being superior to any other Blue for colouring water fit for rinsings, and imparting a beautiful and lasting whiteness to the various products of the Loom. To test the superiority of Dawson's Royal Victoria Blue over all others offered for sale, the following easy experiments can be made to prove the fact, viz.—Take two wine glasses of clear water—get a fig of the very best blue you can procure, and dissolve a small portion in one of the glasses; in the other glass, dissolve a little of Dawson's Royal Victoria Blue; let them stand for a short time, and you will see the reason why the Blues in general use get into the plaits, and otherwise leave specks and blotches on the Linen; the colouring matter in them is insoluble and will not mix with water, but falls to the bottom in muddy flakes, and particles, being merely, and during agitation only, a dark dingy colour in the water.—Dawson's Royal Victoria Blue, on the contrary, combines with the water, and gives it the true Smalts, or Powder Blue Colour, but it is superior even to Smalts in this respect, that it is held in perfect solution, and never "settles" thus, while the fig Blues dry on the Linen in patches, this unequalled Blue enters with the water, into the minutest part of the fabric, and hence arises the beauty, clearness, and permanency of the whiteness it imparts.

PRICE ONE PENNY per Cake, which will colour upwards of 30 gallons water, to be used as Stone Blues, but in smaller portions—the colouring matter being so much stronger.

To Owners of Steam Boats, Founders, Gas Co's, &c.

DAWSON'S PATENT JOINTING POWDER,

The Patent Jointing Powder is particularly recommended for Jointing Steam, Water, and Gas Pipes, Gasometers, Stone, Water Tanks, &c. as it will be found to surpass White or Red Lead, in making Joints (and superior to Iron Rust), where dispatch is required, as Steam Heat can be applied immediately to the Joint made with the Patent Jointing Powder, Prepared Oil, and Directions for Use, will be sent with the Powder. The following are a few of the advantages in using Dawson's Patent Jointing Powder, which is now so generally used and approved for uniting the Joints of Steam Pipes, &c:—A Joint put together with this Powder, and heat applied, will, in three or four hours become perfectly hard, and from its peculiar property of preserving the surface of the metal, a joint may be very soon disunited, It will harden under water, and when once set, no art can soften it again. It can be used in the form of thick paint for the inside joints of New Boilers, to prevent what are called Blows or Leaks and Corrosion. Leaky Old Boilers can be kept in good working condition for some months after being painted inside with the Patent Jointing Powder, which must be laid on to the consistency of thick cream. When hard it will stand a considerable degree of heat, and can be used about Metal Flues leading from Shop Stoves, or Repairs of Furnaces. To Owners of Steam Boats, Gas Companies, &c., it is particularly recommended, for dispatch, durability, and economy, and will also be found superior to any cement or mastic in use for Jointing Water Tanks, Steam Pipes, &c.

HUGH PATON,

Carver and Gilder to the Queen,
And Her R. H. the Duchess of Kent,

ADAM SQUARE,

EDINBURGH.

"The present work is the most entirely original, both in character and execution, of any published during the present century. We doubt if any city, town, or borough, in the two kingdoms possesses such a gallery of Portraits of its deceased worthies, and we have no doubt whatever that no place in her Majesty's dominions afforded such scope for the pencil as Edinburgh during the last fifty years of the past century, the period during which these portraits were taken, with a few exceptions. Mr John Kay, the artist, was a humble barber, whose shop was in the Old Parliament Square of Edinburgh. In 1771, he commenced business there, and the heads of the most eminent men of that rich and palmy period of the history of Auld Reekie, passing daily through his hands, or before his eyes, as they went to and fro in that ancient place of legal and general resort, the admirable talent with which he was endowed found ample scope for its exercise. Accordingly, the most eminent legal, literary, and political characters of the time, with various other public personages, then not less notorious on the pave, from a Lord of Session, down to the harmless idiot, and long-remembered beggar, appeared in succession at his small window, to the delight of all Edinburgh, and scarcely ever, the artist being entirely void of malice, to the discomfiture of the parties themselves. So perfect also are these portraits, down to the minutest part of the picturesque costumes of the time (the time of periwigs of all denominations, of formal cut coats, cock'd hats, dress swords, expanded ruffles, and exorbitant shoe-buckles), that the few survivors of the last century in Edinburgh gloat over these pictures of the past, as summoning up a world of mighty shadows from the grave, and warmly recommend them, as we learn, to the degenerate men of these days, as a visible embodiment of that more robust and salient state of society.—We must notice here, that each of the sketches of portraits is accompanied by descriptive letter-press, admirably executed, and rich in choice anecdotes and curious stories of the old customs and habits of Edinburgh life, and of the remarkable characters of the period. We would give one of our "lugs," the worst of them, we mean, for such a living gallery of Glasgow worthies of the same picturesque period.—We recommend this work to the public, and especially to all to whom the modes of life of our recent ancestors are interesting, as well as those acquainted with the literary history of the last century, in Scotland. These portraits and sketches present a series of panoramic views of the former, and of the eminent men belonging to the latter, unequalled in truth, freshness, and variety. It is like descending into the catacombs of the dead, and seeing them in the dress they wore when alive; and, finally, by the instrumentality of the descriptive letter-press, of hearing them speak with most miraculous tongue. . . . As a fireside companion, we know of few works more acceptable."—*Scottish Reformer's Gazette*.

"There is no book we would sooner take to be the amusement of a pleasant fireside hour."—*Weekly Journal*.

"The present issue is intended, we presume, to place the publication within the reach of many who could not afford to purchase the work in its more costly shape. The change will, we are sure, be generally acceptable, especially as nothing is lost as regards beauty of letter-press."—*Edinburgh Observer*.

"The engravings are expressive, and the letter-press most amusing. The work is so cheap that it should be in every one's hands."—*Evening Post*.

"The high estimation in which Kay's Portraits are held for their graphic power and historical interest, will no doubt insure a hearty reception for Mr Paton's New Edition."—*Edinburgh Advertiser*.

"The real value of the work is in the highly interesting biographical and anecdotal notices which Mr Paton has been enabled to collect of the individuals sketched by Kay, and which, in fact, combine a pretty correct local history of the city during a long period of years."—*Caledonian Mercury*.

"Looking through Kay's pages reminds us of the young man in the eastern tale who sojourned in the city where all the men and women had been turned into marble, and stood there in the attitude and with the look they wore when the magician's wand, centuries before, rivetted their stony fetters. Kay's work gives us the power of realizing the complete *tableau vivant* of our city as it was in the antiquated days of our fathers and our grandfathers. The quaint in manners and the odd in appearance, the tall and the short, the celebrated for good, and the notorious for evil, those who administered law, and those upon whom law was administered (the active and passive voices of justice), the belles and the beaux, the literati and the heroes, of the last age of Edinburgh, are all caught up by a pencil whose fidelity was inveterate, and preserved to our view precisely as they moved in our streets, or took part in our affairs, or figured in the gay or solemn scenes of forty, fifty, or sixty years ago. The book is the most graphic specimen of the domestic history of a city in existence, and the present republication of it deserves and will obtain liberal encouragement."—*The Witness*.

"The celebrity of these portraits of celebrated characters, once the delight and amusement of Edinburgh, is sufficient to justify their republication in the present cheap and elegant form."—*The National*.

"Having formerly said so much in praise of this highly popular work, we would only add, that every Scotsman should have it."—*Weekly Chronicle*.
